Gaming revenues

Bay, county portions based on population

BY JACQUI COCHRAN
The City of Bay St. Louis receives three sources of gaming revenues—state taxes, service fee revenues and a per device/machine tax from the city located Casino Magic operation.

Along with these, any economic prosperity experienced by Bay St. Louis businesses as overflow from the casino is reflected in increased sales tax returns.

The county receives one source of revenue from the Bay located gaming barge—state taxes.

By law, each month the gam-

ing facility pays taxes on all money earned as gross revenues.

The state taxes the casinos gross revenues at four percent of the first \$50,000; six percent of the next \$84,000; and eight percent of all revenues over \$134,000.

Then the facility is taxed again, on those same revenues, for the county and city of facility location (Bay St. Louis) at four-tenths of one percent of all gross gaming revenues up to \$50,000; six-tenths of one percent on earnings over \$50,000 and up to \$134,000; and eight-tenths of one percent on

revenues over \$134,000.

The amount calculated for the county and Bay St. Louis, together, is then divided by population of the two, county and city of gaming location. Presently the county's portion of the gross revenues equals about three times that received by Bay St. Louis.

The populations of Waveland and Diamondhead are calculated into the county percentage, adding to its cut of the pie.

For the past six months, dating from September, opening day at Casino Magic, through

Recycling now offered to county residents

Recycling drop-off centers serving rural Hancock County will open in three locations during early May and will accept the same materials as those collected at curbside in Bay St. Louis.

This is a year-long county project funded by the Mississippi Department of Environmen-

tal Quality (MDEQ) and operated by Gulf Coast Recycling, which also operates the curbside pick-up in Bay St. Louis.

"These drop-off centers offer county residents the opportunity to both recycle their valuable resources and divert materials from our landfills" said Howard Lizana, District Three supervi-

sor, who spearheaded the funding effort.

"Hancock County is running out of landfill area at a time when landfills are getting harder and harder to get permitted. Therefore, recycling is the only way to extend the life of the per-

Commuter service lacks state and federal funds

BY JACQUI COCHRAN
Members of the Southern Rapid Rail Transit Commission (SRRTC) voted Friday to send representatives to Washington, D.C. for research into rail passenger options.

Alabama commission mem-

ber James W. "Bill" McFarland suggested they pursue a national system of commuter service, forgoing 403B service.

Robert "Mike" Merry, rail activities manager for the Mississippi Department of Transportation, objected to the

change, citing the flexibility of time schedules available through the 403B service as preferable.

Merry explained there are presently three types of passenger rail service, the national system, the 403B service and commuter rail.

The national system, he con-

A workable solution

Salary compensation offered to local businesses hiring teens, young adults

BY LIZ HAAS

Casino Magic, sponsor of a summer employment program for youth, will pay businesses half the salary of high school and college students they hire who are accepted into the program.

Magic's AYSE Program

(Assisting Youth with Summer Employment), spearheaded by a group of concerned citizens, encourages businesses to hire high school and college students to promote on-the-job training and work familiarization opportunities for the summer months of June, July and August.

The program aims to help youth prepare for their future and the future of the local community.

"This is an effort to give these students some work ethics for later on in life," said project chairman Eric Labat.

"The key thing is to get

businesses to participate in this project," said chairman Eric Labat. "It will help both the students and the employers."

Casino Magic allotted for 50 students to participate in the project.

Favre, Cowand address issues

EDITOR'S NOTE: Mayoral candidates Eddie Favre (incumbent) and Lisa Cowand respond to the following questions:

Q. What are your long-range plans for road, sewerage and drainage improvements?

FAVRE: "My administration has developed a plan to address our paving problems based on needs. We have followed this plan and have completed paving 13 1/2 miles of streets during this term. We will continue to work this paving plan."

"Drainage problems have

been addressed with a "return to basics" approach which solves the small problem before it turns into a major problem. During this administration, our 100+ miles of ditches have twice been cleaned, eliminating long-standing drainage problems in many areas."

"The current sewer system has two needs: Extension into areas presently without service and complete renovation. This administration has initiated a three-phase extension program which is now one-third complete and will continue in the next administration."

"Our renovation program has also begun with the installation of new lift stations, repairs to

existing stations and major sewer line replacements, such as the 400 block of Carroll Avenue, and these programs will continue."

COWAND: "A long-term perspective will guide and address the needs of our city. Road, sewerage and drainage improvements are all part of the city's foundation. These areas must be concentrated on in an efficient and cost effective manner. Sewer completion in Cedar Point, Old Spanish Trail and other unsewered areas must be undertaken. Our sewer system will need upgrading to keep pace with future needs. Long-range planning is essential,

especially in the area of maintenance, because to me, maintenance is preservation."

"Covering all ditches would be an asset to our city, while correcting crushed or deteriorated culverts under driveways as well."

"Although I know it couldn't be done overnight, I feel this program should be implemented. Upgrading of roads, whether it be through overlaying, sealing or general maintenance must be ongoing."

Q. Do you foresee any future annexation for Bay St. Louis?

COWAND: "The only prop-

mitted sites that we have right now," he said.

The county's goal is to reduce the amount of waste going to its landfill by at least 25 percent by 1995.

The locations for the drop-off centers are:

—Parking lot just outside the south gate at John C. Stennis Space Center.

—County waste disposal center at Washington Street and Chapman Avenue.

—County waste disposal center at the intersection of Highway 603 and 43.

The participating sites were selected because they are in high traffic areas with easy access and are on the daily route of many residents, Lizana said.

Up to 80 people per day dump their trash and garbage at the two participating waste disposal centers, according to Curly Lewis, supervisor of Hancock County's five waste disposal centers. They now will have the opportunity to also deposit their recyclables on the same trip.

The center at Stennis will open Monday, May 3 and the two convenience center sites will open May 10.

A recycling drop-off center is a group of large containers, each with a front opening into

which designated material is placed. Each container is labeled just below its opening with the name of the material that should go inside. No other materials, including the box or bag that was used to carry recyclables, should be put inside.

Recyclable materials that will be accepted by Gulf Coast Recycling are:

—Newspapers that are loose — not tied — and dry

—Metal food and beverage containers that have been rinsed and the lids removed or safely pushed down

—Flattened translucent plastic milk cartons (without pigment), rinsed, without lids

—Flattened plastic soft drink bottles rinsed, without lids

—Glass jars and bottles in three colors: clear, brown and green, rinsed and without lids.

Each color goes into a separate container.

To simplify the drop-in process at the centers, residents are urged to separate their recyclables at home by collecting each category of material in a separate bag or box.

By doing this, materials can be quickly emptied at the drop-off site into their corresponding recycling containers, and residents will not need to stand there and sort through everything they brought.

"It is crucial that people use the drop-off centers properly," said Kay Hoffman, operations director at GCR.

"These centers are a community effort and everyone who participates will have an effect on the success of the program. Other recycling drop-off centers, like those at Wal-Mart, have been closed because the

public disregarded their purpose and trashed them severely. We don't want to see that happen in Hancock County."

Gulf Coast Recycling's public education campaign to explain the drop-off centers targets residents who use the two waste disposal centers, schools in their vicinities, and employees at Stennis Space Center.

Employees at the two waste disposal sites will be available to assist people and answer questions, and flyers will be distributed with instructions for preparing materials and using the drop-off centers correctly. Written instructions will continue to be available at each site after start-up.

"If county residents respond well to the centers during this one-year demonstration project, we hope to continue and expand the service," Lizana said.

Secret room reveals huge marijuana crop

BY JANET MCQUEEN

A suspect remains at large after escaping through a trap door in a Pearlinton residence where 398 marijuana plants were confiscated, according to Hancock County Narcotics Task Force Investigator Glen Strong.

"On April 23 at 7:10 p.m. a search warrant for narcotics was executed on Kellar Street in Pearlinton," said Strong, "where a secret room was found in the house."

Strong speculated the suspect escaped through a trap door exit adjacent to the hidden room upon hearing law enforcement personnel entering the home.

The investigator described the 8'x16' 'growing room' as being lined with aluminum foil with a plastic covering on the floor. Items seized included a large growing light, fertilizer, rat poisoning and Miracle Gro in addition to a 20 gauge shotgun and a Ruger mini-14 rifle.

The suspect's automobile, which contained gardening tools and supplies, was also seized.

Assisting in the investigation were Investigators Shane Carr of the Bay St. Louis Police Department, Dave Stepro of the Waveland Police Department and Hancock Sheriff's Department Deputies Dave Martinez, John Bourgeois and Travis Foreman. Strong is in charge of the investigation.

the end of February, totals received in state tax returns on casino gross revenues are: county, \$336,488; Bay St. Louis, \$115,941.

Bay St. Louis also received a total payment of \$267,033 in service fee revenues, through the month of March, and \$84,948 in machine taxes.

The law permits the city to charge a per person boarding fee, which Bay St. Louis negotiated into a lump sum payment of \$1.8 million for the first year of operation. This figure is reflected in the service fee payments only.

The machine/device tax is permitted by a local and private bill passed by the city of Bay St. Louis.

AYSE

Continued from Page 1A

Businesses will be reimbursed fifty percent of the salary amount paid to AYSE youth employees at the end of the work period.

Applications have been received from 65 interested students and five businesses have committed to the project.

"It's a worthwhile program and Casino Magic is showing community support by trying to give something back to the community to help the young people," he said.

The jobs may be part-time or full-time.

AYSE does the following:

—provides jobs for students in the community;

—promotes on-the-job training;

—educates students;

—encourages students to be disciplined, ambitious and successful;

—provides an on-going employment opportunity for students who maintain satisfactory performance.

Students are screened and selected by a four-member committee comprised of local educators and business people on the basis of dedication to class work and the ability to perform under supervision.

Consideration will be given to the student's financial need. Students must be 16 years of age or older to be considered.

Casino Magic has established three reimbursement schedule groups:

—Level III is for college upperclassmen who will receive \$4.85 an hour;

—Level II is for college freshmen who will make \$4.45 an hour;

—Level I is for high school graduates who will earn \$4.25 an hour.

Businesses may choose to pay students more than the schedule allows, but the casino will pay according to that charge to allow the 50 students it has allotted to participate in the project.

For more information on how to get involved with the project, contact Labat at (H)466-4976 or (W)688-4389.

ON PATROL

CHOP SHOP

A domestic complaint lead Hancock County Sheriff's investigators Sunday to the arrest of two Leetown residents charged with receiving and possessing stolen property.

Sheriff Ronnie Peterson reported the arrest of Terry Francis McQueen, 34, and Rayford E. Smith, 48, for allegedly running a chop-shop operation.

Peterson said confiscated were three stolen vehicles, 25 weapons (rifles and pistols) and numerous tools.

"The suspects were believed to be taking the vehicle identification (VIN) numbers off older cars and putting them on the newer cars," the Sheriff explained.

Peterson added Smith runs Rayford's Body Shop in Leetown. Rayford was released from the Hancock County Justice Facility on a \$5,000 bond Monday, while McQueen was released Tuesday, also under a \$5,000 bond.

Peterson said both men await a preliminary hearing, set in May. In charge of the investigation are Chief Deputy Delbert Seay and investigator Nathan Hoda.

"QUOTABLE QUOTES"

By Ellis C. Cuevas

I am happy to report that there are literally hundreds of folks involved and concerned about litter control in Hancock County.

We have good support from our elected officials, governmental employees, law officers and many, many volunteers.

They all know the importance of being involved and helping make ours a clean and beautiful community. On the sad side, there is a yahoo or two, who likes to live in a garbage heap.

Those one or two, in a minute undid the three years of planning and work to make a clean parklike area on the beach for everyone's use and enjoyment.

Along with the planning, several of our Girls Scouts took their precious time to paint litter barrels as project and to help this become a reality.

Bay St. Louis workers took their time and efforts to chain the painted barrels in place in order to make it easy for beach users to dispose of their litter.

So what did the yahoos do? They cut the chains and removed two of the barrels, dumped the trash and stole the barrels.

A good happening is that one of the barrels has already been recovered by police, and they are hot on the trail of the other. If you have seen the second painted barrel about town, please give the police a call at 467-9221.

The recently re-activated Bay St. Louis Business Association will get off with its first big event this coming Saturday.

A free *Cajun Night Concert in the Park* will start at 6 p.m. on Saturday, May 1 on the grounds of the old Bay St. Louis City Hall.

Music will be by Garland Moran & The Night Travelers.

The *Concerts in the Park*, an event sponsored by the Bay St. Louis Business Association for several years has been very popular and is a big attraction.

There will be boiled crawfish (with corn & new potatoes), jambalaya, soft drinks, beer, desserts and popcorn available.

I hope to see you at the *Concert in the Park* Saturday.

I realize I make comments about gnats several times each spring, but I do have to say they are really pesky this year.

It seems the lack of freezing temperatures until the late snowfall is apparently the reason there are so many.

I like to work in my yard, but the pesky gnats put a stop to that in a hurry.

The sellers of repellents for gnats are having a great season, but many folks hate to use them.

If you really want to find out whether you have gnats in your yard or not, just try pulling some grass or weeds out of a flower bed and they will greet you in a hurry.

The interesting thing about gnats is that I am told they do not have any in Picayune, which is only about 30 miles away.

Maybe we could export some to other parts of the state.

Activities are really increasing at the Stennis International Airport in Hancock County.

Buz Olsen, Hancock County Port & Harbor executive director, reports there are at least 48 chartered flights expected within the next six months.

This means an influx of people passing through our airport, which many never even thought about before the arrival of Casino Magic.

The passenger traffic at the airport has meant an increase in employment at the facility, along with the addition of many support positions.

Sun Country was the first to come in with chartered flights, and now Continental Airlines has been added. Our county continues to grow.

Locations of Hancock Convenience Centers

Hancock County operates five manned Convenience Centers for county residents for disposal purposes.

Convenience Centers are located at Pearllington, Highway 604; Standard, C.C. Road off Hwy. 603; South Barn, Lower Bay Road, Lakeshore, across from post office; Washington/Chapman Road; and Central Maintenance Facility, Highway 43 off Hwy. 603.

Heavy debris, such as refrigerators, furniture and construction materials and rubbish is accepted only at the and Standard county land fill.

All household garbage must be placed in the compactors only.

The Standard Land Fill is open daily from 7 a.m. until 6 p.m., while hours for other locations are 10 a.m. until 6 p.m. All locations are closed Thanksgiving and Christmas Day.

It is emphasized that none of the centers or land fills will accept tires, paint cans or hazardous waste or materials.

The general public is reminded that dumpsters adjacent to local businesses are paid for by the respective occupants and these are not for public use.

\$25,000 donation

Casino Magic presented a \$25,000 check to the Cypress District for the Boy Scouts of America's Capital Development Campaign to take place at Camp Salmen located in North Hancock County. Those in photo from left are Jimmy Rutherford, Hancock co-chairman; Al Kokesch, Casino Magic executive vice-president; Michael Haas Sr., co-chairman; and Kyle Strander, Cypress District executive. The campaign is to raise some \$75,000 in the Cypress District; part of the New Orleans Area Council which is to spend \$2 million at Hancock County facility over the next three years.

Army places more emphasis on Guard and Reserve

As the Pentagon goes through the rigors of downsizing and reassigning missions in the wake of defense cuts, more and more emphasis will be placed on the Guard and Reserve to meet the demands of the Army's Total Force plan for the 21st Century.

Fortunately for Mississippi, the proposed defense cuts for Fiscal Year 1994 spared our Reserve forces and will have little impact on our National Guard Armories. Our Air Guard won't even be affected if Congress approves the President's spending plan.

If American forces must downsize, which I strongly oppose, I believe we should place more emphasis on plans to enhance the Guard and Reserve. It is no secret to Mississippians that the Guard makes good economic sense and provides an unmatched return on the taxpayers' investment.

One of the most innovative plans now in the works, but not yet implemented, may soon reap the Guard huge dividends. As active units are deactivated in Europe, the Army has proposed giving National Guard units a great deal of late model equipment. This would greatly enhance our investment in the Guard, and also add to the amount of late model equipment on hand for training.

Instead of advanced artillery, Blackhawk helicopters and almost new vehicles sitting ideal, the Army and Air Guard will hopefully get their hands on some of this equipment in the not-so distant future so that they can use it for training. I support this plan 100 percent. I

believe it's imperative our Guard use the latest equipment — be it for humanitarian missions or to respond to major crises.

Another plan that has worked with great success will develop one standard for the total Army and add additional active component soldiers to train the Reserve component. The concept, which focuses on individual and gunnery skills and combat maneuver proficiency through the platoon level, is being expanded to all roundout/roundup and contingency force pool units this year.

The Army Leadership — both active and reserve — firmly support this plan. The Army's assignment of 2,000 active component advisors in the pilot program should be completed by January 1.

The Army assigned 265 officers and 164 NCO's to the operational readiness evaluation teams, resident training detachments for the roundout and roundup divisions and to nine separate test units. Also, positions will be filled in Fiscal Year 1993 to support additional roundout/roundup units, early deployment reserve component combat support and combat service support units and collective training support units. A total of 404 officers and 373 NCO positions will be filled.

As the whole force gets smaller, Congress and the Army have made great progress to insure more emphasis is placed on the Guard and Reserve. The action will guarantee that our total force is ready and able to deploy, fight and win... at any time and any place.

LETTERS TO THE EDITOR

Baldree supporter wants him to remain in Waveland

Dear Editor,

As a former member of the Bay-Waveland School Board I have seen up-close the way the school board could "shoot themselves in the foot" on many occasions in the past, but when I saw last night's news report on the board's decision (excluding Mrs. Penrose's) to NOT overturn Superintendent Tisdale's decision to remove Mr. James Baldree as principal of Waveland Elementary school — that took the cake!

How could a group of intelligent, highly-respected individuals on the board make such a dumb decision? Haven't they ever heard, "If it isn't broke... don't fix it!"

Why is Mr. Tisdale (who has only been in the Waveland-Bay St. Louis area a short time) able to override what every parent and grandparent in Waveland

(with children who have attended Waveland Elementary) knows has been 16 years of excellent, dedicated leadership at Waveland Elementary School provided by principal Jim Baldree?

I have been fortunate enough to observe Mr. Baldree's outstanding leadership first as a parent (three of my five children attended Waveland Elementary), then as a PTO president of Waveland Elementary for two years, and officer for four years as a member of the school board (as mentioned above), and now as a grandparent of a kindergarten student. I was hoping to have all of my grandchildren benefit from his leadership at their Waveland school.

Respectfully,
Margo Bradford Frommeyer

Cablevision responds quickly to viewer's complaint

To the Editor,

This letter is in response to my letter concerning the Parental Control Channel and Cablevision.

By noon of the same day my letter was printed, I received a phone call from Mr. Mike Smith of Cablevision out of Florida. He was very apologetic and assured me that Cablevision was going to right the wrong that had been overlooked. I am happy to say that Cable-

vision has corrected the situation and restored our Parental Control Channel back to the Family Channel!

In this day and time of trash television, it is wonderful to be able to screen out what is not considered wholesome family viewing.

Thanks, Cablevision!
Sincerely,
Eileen Dorn

Coupons responsible for higher prices

Dear Editor,

Wake up, shoppers. Coupons don't save you money — they cost in four ways.

First, sales taxes are collected by stores on the marked price not the lower price after coupons are deducted... that's 7 percent extra.

Second, stores which offer double coupons value generally have higher prices than stores which do not.

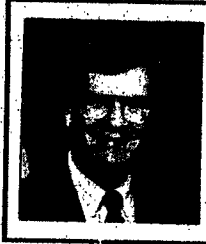

Third, manufacturers charge stores higher prices to cover printing, advertising and

redeeming of store coupons (quite an expensive process).

And fourth, remember, you pay these higher market prices even when no coupons are offered.

So, who's fooling who? Check it out and when you also discover this to be true, write the manufacturers to cease coupon marketing and reduce prices. We'll all save even more if you do!

Regards,
Royce P. Kaupp

FROM THE SENATE

By Senator Trent Lott

Blame is not the answer

No good purpose is served when blame is cast regarding the 51-day fiasco in Waco, Texas. Discussion and investigation, and not affixing blame, give us answers.

We are all certainly grieved about the fate of those involved in the David Koresh incident. However, it's time to make the difficult inquiries. The Justice Department should review the matter, and Congress should hold hearings on the entire episode to learn how to avoid such incidents in the future.

We need to question why the assault on the compound was made in the first place and was there sufficient reason to use force?

I'm not trying to defend the actions of Koresh or his followers, because their deeds were their own and are impossible to defend. But, I think ATF bungled the operation from the start resulting in the deaths of four fine young agents, including one Mississippian. Then, in came the FBI for 51 days to wage psychological warfare on the psychologically unstable.

Then, for what appears to be no obvious reason other than exhaustion and boredom, the decision was made to go in with tear gas. I've heard that action was taken because of evidence the 17 children held in the compound were being abused.

To its credit, the Justice Department and Attorney General Janet Reno finally made a decision to act. And, even if the decision was questionable, at least a decision was made. One concern is that it took 51 days

for the plan to take action.

Again, the last thing we need to do is find scapegoats, and Attorney General Reno certainly was being advised by a whole host of officials and did what she thought was best under the circumstances. But, we must not overlook the need to talk to these decision makers and find out why they handled the situation like they did.

I'm a strong advocate of law enforcement with swift action and swift punishment. However, lately I've been alarmed at how the ATF, FBI, IRS, Justice Department, Fish and Wildlife officials, EPA enforcement and many other federal agency officials are conducting business. They are beginning to show more and more unwarranted action, unprofessionalism and Gestapo-type tactics.

It's become excessive and it is time we take a serious look at how these groups operate to ensure that we have the most effective and rapid means to protect rights and control problem situations. Hopefully, looking at what happened in Waco will help.

There is a lot of information left to sort from this incident. Our focus in the aftermath must be to learn from our mistakes and realign our methods and missions if we find better practices along the way.

STREET TALK

What are your thoughts concerning the BSL donation of \$300,000 to the Bay-Waveland School District?

"I don't think they should...the teachers are overpaid now. The teachers send work home to the parents. Why does everything have to go to the schools and roads? There are other things."

Veronica Fox
Bay St. Louis

"I think they deserve it. They should take it, say 'Thank you,' and if they get more, say 'Thank you' again. It will even benefit the children of those people who were against the gaming to begin with."

John Yatalese
Waveland

"Any money they can give to the schools can help. School systems are in bad need of any money they can get. I think it was a smart move to earmark the funds."

Carlos Cordon
Diamondhead

"That sounds good. The designation of monies sounds okay, too."

Bud Meyers
Bay St. Louis

"I said over 20 years ago, school teachers are badly paid in Mississippi. We should pay them more, rather than waste it on administration. I'm for paying the teachers more."

Sonny Bailey
Bay St. Louis

"I think it's very good. They could give the teachers the money as a bonus—a one shot deal. The schools need to better everything, and they can use the money for other things if not for the teachers."

Board joins the tri-entity solid waste disposal plan

BY LIZ HAAS

The Waveland Board of Aldermen reviewed the solid waste tri-entity agreement presented by the county that sets up a board of representatives from the three bodies, the county and the cities of Waveland and Bay St. Louis.

The agreement sets up a board to act on the disposal of solid waste. The board will be made up of the Hancock County Board of Supervisors president, the Bay St. Louis mayor and the mayor of Waveland.

"I made a few changes in the agreement and ask you to adopt it with the changes," said Lucien Gex, board attorney.

He said, "With the combining of the three bodies, there will be sufficient funds for the needed facilities and certain economical benefits."

"The tri-entity is good because the bigger we are, the better price we will get," said Mayor Stella Frilot.

The city will continue its own garbage pick up, but will join the tri-entity on the disposal of solid waste.

Frilot said, "This is the cheapest cost to us. By 1995 it will be mandated that we have to charge a per unit fee and can no longer use tax money to pay for it."

The board approved to adopt the agreement and authorized the mayor to sign it.

The Municipal Election Commissioners, in charge of voter registration, sent a resolution to the board requesting approval to hire a person from the Circuit Clerk's office to help the city switch the data from the hand rolls to computers.

"Their voter rolls went on computer some time ago and we could use their help switching ours," said Frilot.

The board approved the hiring as requested by the commissioners. In addition, the board approved to request after the data is transferred from the rolls to computer that the election commissioners purge the voter rolls.

The board approved authorization for Michael Barnes, Walter Perkins and Dwight Haskell to attend J. H. Wright Technical School for

Pumps & Control Panels for Sewer Applications on April 22 in Mobile, Ala., with cost of gas and transportation only.

—request by Bay St. Louis little league softball for Waveland to sponsor a girls little league softball team with sponsorship cost of \$250;

—authorization to issue proclamation naming May 6 as National Day of Prayer;

—authorization for Mike Barnes to attend AICPA continuing education courses in Jackson May 18-20 (24 hours CPE credit) with cost of \$410 plus meals, lodging and gas;

—authorization for mayor and alderman Stan Weidman to attend the Mississippi Municipal Association Convention July 13-16 in Biloxi with registration fee of \$175 each; —the minutes;

—the bills.

The board approved to adjourn to the next meeting.

RE-ELECT JOHN WILKERSON

To the Voters of Ward Four:

I have traveled through the Ward, going door-to-door, trying to reach every voter. Needless to say, I missed some of you. If you have something you wish to talk to me about, please either call my home at 467-6098 or leave a message at 467-9092 and I will return your call.

I want to assure you of one thing...although I'm not a native, I, of my own free will, decided 35 years ago, that I wanted to live in Bay St. Louis and raise my children here. I even had to commute to New Orleans for seven years to make a living. Believe me, I want to see Bay St. Louis retain its charm and magnetism...the things that brought me here in the first place. I'm also glad that now we can offer home town people home town jobs. I believe that by working slowly and deliberately and thinking out our problems, we can reach a solution that works for all of Bay St. Louis.

In closing, let me say that I have enjoyed my time as your City Councilman and I hope to be able to continue to work for you. We have programs started that I would like to complete. At this time, I would like to officially ask for your vote. Please vote for JOHN WILKERSON on May 4th for the office of City Councilman, Ward 4.

Thank You,

John Wilkerson

I have an image of our City where we are a unified community pulling together. Where our long-term goal is providing for a superior quality of life for all our people. Where short-term decisions are made while focused on our long-term goal. Made up of neighborhoods and sidewalks, not parking lots and asphalt. Where a business like a casino is viewed first, for its overall effect on our community and then, secondly, as a means for us to improve our standard of living. Where we are not just growing, but more importantly, improving. Where our children come first and above all else. Where integrity, openness and honesty prevail.

IT CAN BE DONE AND CAN START ON MAY 4TH!

SOME ACTIONS THAT WILL HELP GET US THERE

EDUCATIONAL EXCELLENCE - We need to take steps to ensure that a percentage of gaming revenue is dedicated to our schools. Year in and year out. As part of this, we need to enact a plan to assure that teacher salaries progress to at least the Coast average.

I WILL TAKE THE LEADERSHIP ROLE IN MAKING IT HAPPEN!

ZONING - We need a comprehensive zoning plan that properly addresses casino development. We are 2 1/2 years behind.

I WILL MAKE THIS A TOP PRIORITY

RECREATION & YOUTH PROGRAMS — We have a organized sports program, but we need to expand it to where these are part of the overall program. Our children need entertainment and places to go. It's time that we develop a long range plan to include such things as a Community Center.

I WILL WORK WITH YOU TO DEVELOP A PLAN AND SEEK FUNDING TO GET IT MOVING!

IF YOU NEED A RIDE TO THE
POLLS OR HAVE A QUESTION,

erty that I am aware of runs out on Blue Meadow Road into the Ted Lyman Subdivision on such streets as Stewart and Mole Drive and a stretch on Longfellow Drive.

"To my knowledge the first area mentioned is in what would be classified by the Corps of Engineers as Plain B Flood Plain District and would be subject to those building requirements. Elevations and insurance requirements would all need to be taken into consideration and addressed.

"The density of population and all other contingencies would have to be weighed prior to a decision to expand our city's boundaries."

FAVRE: "At the present time, I see neither a need for nor a benefit to be gained from annexation."

Q. Do you feel the Police Department is adequately handling the drug problem in the community, particularly in the Third Ward?

FAVRE: "I feel the Police Department is doing a great job dealing with the drug problem in our community, including the Third Ward. Our participation in the County Drug Task Force has enabled us to provide a more direct effort in dealing with the drug problem. (As evidenced by the recent undercover operation which resulted in 32 arrests).

"Drug education programs, such as DARE, are being introduced into the school systems. But the key to success in eliminating the drug problem is community involvement. Without public involvement, whether by reporting sales or uses of drugs, or by educating our children of the pitfalls of drug use, we will continue to have a problem."

COWAND: "Not being in the position of having all privileged information as to what strategy the Police Department is using, it's a difficult question to answer. I can only speak to the future."

"More visibility of police officers, perhaps on foot, may again help address this ongoing problem. But in order for future generations not to fall prey to this real problem, we must furnish our children with the tools that will keep their minds occupied and focused."

"Children need structure, entertainment and self-esteem. Through the expansion of city programs, perhaps we will be able to save the next generation. If not, then we have failed, but not because of a lack of community support."

Q. Would you support foot patrols in high crime areas?

COWAND: "Yes, in high-crime areas, I feel that visibility of police certainly acts as a deterrent to crime. If I am elected mayor, I will make the opportunity to sit down with Chief Frank McNeil and see whether he feels this would alleviate the problem. After all, he is the expert."

FAVRE: "Yes, but this does not remove the need for citizen involvement through programs such as 'Neighborhood Watch' and 'McGruff Safe Houses.'"

Q. Would you support a gaming development in downtown Bay St. Louis? (Yes or no)

FAVRE: "A yes-or-no answer has little or no bearing on whether or not there will ever be a gaming development in downtown Bay St. Louis. We are talking about a legal question — no different than a gift shop location on Highway 90 or another antique shop locating on Main Street."

"However, in order for a gaming development to ever locate in downtown Bay St. Louis, it must satisfy the concerns of a number of federal and state agencies, including but certainly not limited to the Bureau of Marine Resources; the Army Corps of Engineers; the Secretary of State; the Mississippi Gaming Commission; and the Department of Archives and History."

"If it is successful in satisfying the concerns of all these and the other agencies, it must satisfy the city's concerns which include parking, traffic congestion, emergency evacuation and code compliance — to name just a few."

"Based on the Attorney General's opinion dated August 27, 1992, downtown Bay St. Louis is a legal site, and any efforts to remove the opportunity would result in legal action against

the city. Removal of the opportunity would be considered arbitrary and capricious, resulting in tremendous legal exposure for the city. And, as mayor, it is my responsibility to see this doesn't happen."

COWAND: "No. The existing resort has given Bay St. Louis an opportunity to prosper through jobs and revenue. We can continue to benefit while not changing the character and quality of our community. Further development of casinos in Bay St. Louis, whether it be Main Street or North Beach would have a tremendous impact on our residential area and historical charm."

"Careful planning is of utmost importance. We are experiencing rapid growth, and this need not be detrimental to our city. However, forethought and vision are essential if we are to maintain our character and quality of life that we are accustomed to and what makes our city special to each of us. How can we begin to entertain the idea of another casino development when we have not rectified our present traffic dilemma?"

Q. How many gaming developments do you think Bay St. Louis can support...and where?

COWAND: "I think the city of Bay St. Louis should limit the number of casinos to one — the existing one. We are faced with the question of casino dollars on our beachfront or historical protection of our community. Too much of a good thing makes it not good any longer."

"Enforced zoning would certainly curtail the number of casinos that could threaten our city's future."

"Bay St. Louis is an old and established community. Through zoning we can't go backwards, but with good reasons we can go forward."

FAVRE: "Based on the gaming study completed for the city, we have already exceeded the projected number of visitors. Therefore, any additional developments would be questionable."

Q. What is your long-range plan for use of additional gaming revenues?

FAVRE: "The first and most important use of additional gaming revenues would be to maintain the 85 percent city tax cut provided by this administration. It is also a must for the city to continue to provide additional funds to our school system in order to enhance our children's educational opportunities."

"The balance of gaming revenues would be used to increase funding of both operations and construction of our libraries; increase funding of both operations and construction for our recreation system; increased funding for our paving program; increased funding for our drainage program; and increased funding for promoting Bay St. Louis and encouraging further economic development, both of which provide even more revenues for our city."

COWAND: "There is no definite answer as to what the tax rate will be in the future. The recent tax cut in Bay St. Louis was based on revenues created by gaming. To maintain this same tax structure means that we must hope that gaming revenues continue to flourish. However, we must be realistic and look to the West, as the city of New Orleans has opened its doors to the gaming industry. The residual effect is still unknown."

"With this said, and if all goes well, an ongoing fund that would give teachers a pay raise and not just a one-time supplement, through a local and private bill, would be in order with the physical necessities of the school system in place as well."

"Recreation facilities must not only be improved but constantly expanded upon. I would fully support a community center. But before entering into a full-blown building program, we will have to know if we have the finances to construct, the finances to support, and the finances to continue from this generation to the next."

"I feel that we should investigate the possibility of creating a joint program with the city school system, with the city picking up the funding it would take to run a pilot summer program."

Liability and certified personnel and other expenditures would all have to be addressed. If all could come together, and the program generated interest, then I firmly believe a community center would be in order. It's much less expensive to nurture our children now than it is to rehabilitate tomorrow. The possibility of funding an alternative education program and save the children that are falling through the cracks is also of great importance."

"Sidewalks, bicycle paths, to ensure safety all need to be part of these projected revenues. Police and fire protection must be expanded, and their needs met. Completing the sewer in Cedar Point and other areas is essential, keeping in mind that the sewer plant will need upgrading to keep pace with the future needs."

"Drainage and road improvements should be standard operative procedure."

"Senior citizens programs should always be among the forerunners. But, before any of this can be done, a solidified agreement with the casino(s) as to what the financial agreement is actually to be must be determined."

"The guidelines to these negotiations are the city's to make, not the casino's."

Q. Could you offer suggestions for making the city more attractive to visitors?

FAVRE: "With the implementation of the chamber's 'Litter Free in '93' anti-litter campaign, we have seen a tremendous improvement in our community's appearance. With additional involvement and pride, it will be even better."

COWAND: "Although this is not the way to make friends, people must be aware, through enforcement of the existing ordinance, that litter will not be tolerated. The Beautification Committee has done a tremendous job in promoting, while educating all on litter control in our community."

"But, when people have to go into their pockets to pay a penalty for littering our city they would hopefully be more conscientious about what they do with their trash."

"A tree planting program, coupled with landscaping throughout the city would enhance the aesthetic qualities of Bay St. Louis."

"Part of the city's ongoing maintenance on drainage and streets all come into the picture. More accessible neighborhood parks, sidewalks, bicycle and jogging paths all make a more attractive city."

"An enforced uniform sign ordinance needs to be followed. We are strewn with billboards that promote entertainment outside of Hancock County."

Q. Do you foresee any further consolidation with the county—in the areas of law enforcement, fire protection and education?

COWAND: "As a city councilman, the consolidation of the tax department as well as the animal shelter were accomplished, not only saving tax dollars, but more importantly, serving the cities more efficiently and conveniently. Future consolidations of law enforcement, fire protection and education should always be taken into consideration. Combining our local governmental services will always be a huge task, but it should never stop being considered. More interaction with our local entities would be an important tool in not only opening discussions of such endeavors, but to keep abreast of ongoing information."

FAVRE: "We presently enjoy consolidated services for tax collections, libraries, some areas of education, such as the use of the Vo-Tech Center and the Drug Task Force. I see the opportunity to continue consolidations in the areas of dispatching, purchasing, recreation, garbage collection and disposal, and the court system."

Q. What makes you the best candidate for this job?

FAVRE: "I am a life-long resident of Bay St. Louis, having chosen to remain here to provide a home for my family. I am a graduate of the University of Southern Mississippi with a degree in business administration, and I am also a Certified Public Accountant. I have had the opportunity and privilege of serving you for eight and a half

years as city clerk and for the past four years as mayor."

"The list of accomplishments made during this administration reads like a wish list for any elected official. It includes an 85 percent city tax cut, including car tags; not one or two, but three reductions in utility rates; over 1,500 local job opportunities; over \$1.2 million in grant funds for projects such as Highway 90 lighting, depot renovation, public transportation and our Bay St. Louis Development Foundation; curbside recycling; and major drainage and paving programs. I have addressed all issues, popular or controversial, regardless of the political consequences. Equally important is the new-found pride and excitement that surround us in our daily activities."

COWAND: "My experience as an elected official for the past seven and a half years—as a Bay St. Louis councilman and as a supervisor for Hancock County and a member of the Gulf Regional Planning Commission, have well prepared me to serve the people of Bay St. Louis."

"We are in the early stages of growth unlike anything in our past, and many obstacles must be overcome for our city to prosper."

"Long-range planning in government is essential. Opportunities and challenges that new businesses and industries place upon us have the means to improve our standard of living, but long-range planning and foresight are fundamental to establishing guidelines that direct this growth so it nurtures our community for future generations to proudly inherit."

"We must work together with all local government entities to ensure we pursue those values while directing growth in an orderly manner. Today we are fortunate; unemployment is down. My concerns and commitment take us into tomorrow—providing care for our children and senior citizens; improving roads and police protection and affordable utilities; protecting and expanding our recreational wealth and historical character of the city."

"I am committed to serve the people of Bay St. Louis with an open mind and willingness to listen. We must work together and not compromise our values. I will be a full time mayor, available to the people and reactive to the needs of our community."

A message to the Voters of District #1 from
CARLEEN MURPHY MORAN,
CANDIDATE Councilperson District #1....

As the election draws near, I ask that you reflect on OUR CITY and it's NEEDS for the FUTURE, the PEOPLE of OUR CITY, and THEIR NEEDS for the FUTURE. We are in a period of vast and rapid growth, inherent to our new industries and also to the growth of our population.

We need to question whether we want to SETTLE for "GOOD" or Do we "ASPIRE" to be "BETTER"???

"GOOD IS SIMPLY NOT ENOUGH FOR OUR CITY ANY LONGER!!!!"

Being born and raised in Bay St. Louis has been a very fulfilling experience. It is this lifetime experience and the education gained from it and from my formal education that drives me to be DEDICATED to "BETTER". Bay St. Louis is in a transitional period. What happens TODAY in our City will be felt TOMORROW. Our City Council needs to be representative of the constituency of our City and as a City, we need to strive to EXCEL !!!!!!!

I ASK THAT YOU CONSIDER ME
FOR COUNCILPERSON, DISTRICT #1
WHEN YOU GO TO THE POLLS
ON MAY 4TH.

Proposed bond issue confuses some residents

BY JACQUI COCHRAN
A \$100 million bond issue proposed by Casino Magic has some Hancock residents fearing for their tax dollars. Several comments to The Echo's staff and telephone calls to this office, indicate there is a need for a clarity concerning the county's sponsorship of a \$100 million bond issue for Casino Magic.

On April 5, the county board of supervisors agreed to sponsor

Bond attorney Lucien Bourgeois recently responded to implications by state Representative Harry Frierson concerning bond obligation by the county stated: "The bonds, if issued, will be issued pursuant to Chapter 3 of Title 57 of the Mississippi Code of 1972, as amended."

"This statute authorizes both cities and counties to issue industrial development

the Mississippi Code of 1972, as amended.

"Casino Magic will place the improved property as collateral for the bonds."

"Casino Magic, just as many other companies throughout the state, have utilized this method of financing, to take advantage of the exemption from the sales tax authorized in Section 57-3-33 of the Mississippi Code of 1972, as amended."

Tuesday, Gerald Gex, attorney for the board of supervisors said, "A revenue bond issue is a bond issue that is paid by revenues generated by the project. If they (Casino Magic) default on the bonds, the bond holders would have the collateral. The county or city has no liability or obligation as they are simply sponsors as provided for any industrial bond endeavor."

"Let me emphasize," Gex continued, "Neither the county or county taxpayers will have any obligation whatsoever for the bonds or the project."

"The reason for the county sponsoring the bond issue is

because under state statute, a county or city has to sponsor a bond issue of this type," Gex added.

"Neither the county or county taxpayers will have any obligation whatsoever for the bonds or the project."

Gex

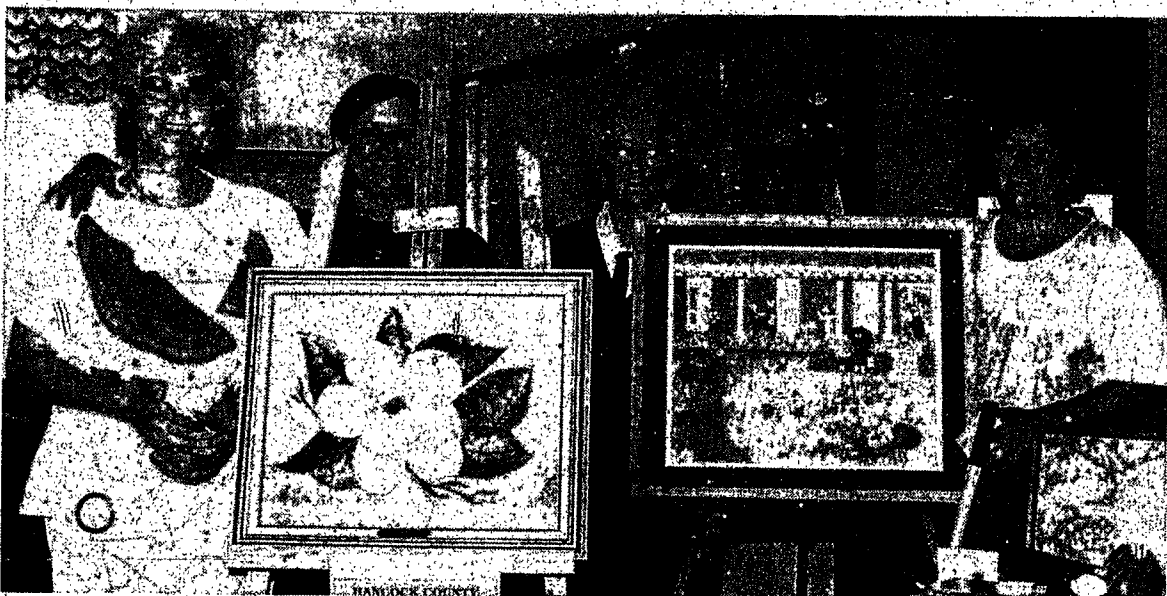

a proposed industrial bond issue which would give Casino Magic up to \$100 million for the construction of a hotel and golf course complex.

Mardi Gras Casino Corporation attorney and board of directors member Roger Frommelt reported Merchant Capital Corporation would be the holder of the bonds and Casino Magic would probably be the bond

revenue bonds that only allows the issuer of the bonds to pledge the revenues of the project for repayment of the bonds.

"This statute specifically prohibits the county from pledging the full faith and credit or taxes of the county for repayment of the bonds."

"Casino Magic, at the present time, plans to purchase their own bonds which is authorized under Chapter 3 of Title 57 of

AN OPEN LETTER FROM EDDIE FAVRE

Don't be misled . . .

The Rumors Continue!

I STAND BY MY STATEMENTS

RUMOR:

FACT:

COMMENT:

There is a gaming development planned for downtown Bay St. Louis.

I know of no planned gaming development to be placed in or near downtown Bay St. Louis.

The issue of downtown dockside gaming has been hotly debated for more than two years. Whether or not this issue ever comes about, it is an issue that is addressed by state law ... not an issue determined by the Bay St. Louis Mayor's Office. It should be stated, however, that any attempts, on the part of the City, to prohibit downtown development will undoubtedly result in lawsuits against our city. The City of Gulfport realized this during its discussions of whether or not to allow dockside gaming in its small craft harbor (based on the Attorney General's opinion dated August 27, 1992).

RUMOR:

FACT:

COMMENT:

Bay St. Louis city officials can guarantee a development or guarantee no development in or near downtown Bay St. Louis.

Not possible!

In order for someone or some group to develop the Bay St. Louis downtown waterfront for any development, the interested parties must meet and satisfy all the criteria set forth by the many federal, state and local agencies, including, but not limited to:

- U.S. Corps of Engineers
- Bureau of Marine Resources
- Department of Archives and History
- Impact on city's properties listed on the National Register of Historic Places
- Mississippi State Gaming Commission
- Licensing procedures, proximity to schools, churches, suitability, etc.
- Secretary of State
- Bottomland leases

If a developer were able to satisfy all the requirements placed before him, then the City of Bay St. Louis would devote special care and attention to a developer's impact on the area. The City then would address the matter from the standpoints of code compliance, traffic, parking, evacuation, site plan review, impact on nearby small business, historical landmarks, nearby neighborhoods and many other aspects.

THE CITIZENS OF BAY ST. LOUIS SHOULD NOT BE MISLED BY CANDIDATES PLEDGING SUPPORT FOR OR AGAINST BEACHFRONT DEVELOPMENT. QUITE FRANKLY, A CANDIDATE'S SUPPORT OR OPPOSITION WILL HAVE LITTLE OR NO EFFECT ON THE ISSUE.

LET'S GET BACK TO THE REAL ISSUE OF WHO IS THE RIGHT CHOICE FOR THE MAYOR'S JOB IN BAY ST. LOUIS.

REMEMBER,

PROMISES COME EASY . . .
RESULTS MORE DIFFICULT!

FoodSHARE signup set for May

Signup for this month's FoodSHARE distribution is through May 9. Food delivery date is May 22.

People who sign up for the program pay \$14 for each grocery packet they want and volunteer two hours of community service per packet. One dollar of the amount goes for transportation costs.

The \$14 can be paid by cash, money order or food stamps and the community service must be

completed prior to delivery day. All orders must be paid by the May 9 deadline.

A packet consists of frozen meats, fresh and frozen fruits and vegetables and bonus items such as pinto beans, rice and seasonings.

In order to protect frozen foods and to ensure fruit and vegetable freshness, Hancock FoodSHARE hours for pick up will be from 9:00-10:30 a.m.

To sign up, contact Bridget Brignac at 255-7092.

COOKING UP A STORM

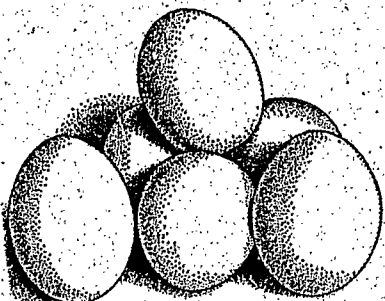

By Katy McGuire
Caire

Some of the world's most delicious desserts, strange as it may seem, are also among the easiest to make, much as Biscuit Tortoni — or Bisque Tortoni — as some call it.

This delightful melange of cream and sugar and macaroons and sherry is just one of Italy's many sweet-tasting gifts to the world. Curious as usual, I sought the origins of the name, and learned that the "Tortoni" came, in all probability, from the name of a 19th century Italian "restaurateur" in Paris. My dictionary defines "bisque" first as the "thick cream soup" which usually comes to mind when one says "bisque" and secondly as "an ice cream made of heavy cream, with powdered nuts or macaroons."

And, since "biscuit" is also spelled "bisquit," you can easily see how it all came about! But, you don't really have to know any of this to enjoy!

BISCUIT TORTONI
Whites of 3 eggs
1/2 pt. whipping cream, whipped

1/2 cup confectioner's sugar
1 or 2 Tblsp. sherry
1 dozen almond macaroons, crumbled

Whip the eggs frothy, and whip the cream. When the cream is almost to a peak, add the sugar very, very gradually. Fold in the whipped egg whites, very gently, add the sherry and crumbled macaroons, reserving some crumbs to sprinkle on top.

Fill small fluted paper cups with mixture (or small dishes). Sprinkle crumbs over. Cover with waxed paper and place in the freezer until quite firm. Top each with a cherry if desired. (8 servings).

One of my spur-of-the-moment of desperation "goodies" came about years ago in this way: I had arrived home with a half gallon of super French Custard ice cream, and had hurriedly jumped out of the car to arbitrate, to put it gently, a hotly contested baseball game among a group of small boys, including two of my own.

When I finally remembered the ice cream, it was a soupy mess. So, mindful of a delicious burnt almond ice cream from a famed restaurant, I crumbled some cookies into the ice cream soup, toasted some almonds, mixed them in — and I've been serving this delicious dessert to the tune of compliments ever since!

For another "sweet" — almost a "freebie" — I mix the crumbs left over when baking brownies with vanilla or chocolate ice cream, or with whipped cream or even with whipped topping for a quick dessert.

Commuter

Continued from Page 1A

tinued, is run through Amtrak. It is relatively inexpensive for the areas it serves. The cities provide manned and unmanned stations, as well as sharing track maintenance costs with the states, while Amtrak pays for overall operation.

The national system is primarily a tourist line and the hours of passage are determined by the line to line run. The Sunset Limited run is part of the national system.

The 403B service, the system the SRRTC has selected for a proposed commuter service from New Orleans to Mobile, is subsidized by the participating states, as well as Amtrak.

Mississippi and Louisiana each have their \$137,000 participating funds, but Alabama's legislature has yet to appropriate their portion.

Merry said when all of this was first being organized Alabama had their portion, but later decided to spend it in state, on the initiation of the Gulf Breeze commuter service from Birmingham to Montgomery.

McFarland told commission members, in view of the recent political turmoil in Alabama he felt the likelihood of funding a coastal commuter line by Alabama was questionable.

"When Governor (Guy) Hunt was convicted (of inaugural fund misuse) he immediately ceased being governor, and if he wins his appeal, he returns to office," McFarland explained.

He added since Alabama was in a state of mass confusion, with no definite end in sight, the commission may do well to omit Mobile from the planned commuter line.

According to John LeBourgeois, technical liaison to chairman Curtis Fairley, "When Amtrak was mandated by Congress to provide the (New Orleans to Mobile 403B commuter) service several months ago, there was no funding appropriated."

He said today equipment for that line is available through the Chicago to New Orleans run.

Waveland resident and commission member David Marquar presented a congressional voting record showing both senators Trent Lott and Thad Cochran voted against emergency funding for Amtrak.

Both senators voted against tabling an amendment to HB 1335 which would have stripped \$188 million for capital improvements and rehiring by Amtrak.

Merry said the third option, a commuter rail line, required full financial support from the providers.

"If we have the money, Amtrak will run the line," he commented.

The commission tabled a motion to send a representative experienced in transportation accounting to Amtrak headquarters.

The commission expressed

confusion over the formulas used by Amtrak in calculating the states subsidizing revenues and expenses.

Fairley stated it was his belief that the World Fair train line failed financially because of Amtrak bookkeeping.

"We need someone to get in there and see what the states are getting," he interjected.

The members said they would vote on the suggestion in June when the commission met next in Birmingham.

Councilman-At-Large

My wife, Peggy, my sons, Tommy and Michael and I would like to thank the citizens of Bay St. Louis for their past support. We would also ask for your support on May 4, so together, we can continue to build a brighter Bay St. Louis.

Formulating economic development that provides job opportunities, better growth for small businesses that will coincide with the preservation of our culture, lifestyle and historical past.

Utility services that are continually improved, as in the past, and are efficiently run to keep rate cuts in place with a possibility of more rate cuts in the future.

Taxes that have been cut (property and auto tags); not to be raised as long as adequate revenue is available.

Utization of local citizens' talents, to continue the many programs that are already in place (neighborhood watch, Bay St. Louis Development Foundation and McGruff houses); and look at other programs for the future.

Readying our fire, police and public works departments to meet future growth and needs. This needs to be accomplished through salaries that are competitive, training and updated equipment.

Efficient use of your tax dollars, so we can continue to improve: streets, drainage, sidewalks and other projects, such as the depot renovation. Continuing support to the library, parks and playgrounds systems and schools.

I'm now going to ask the voters of our community not to let me walk in front of you. I feel you do not need to be led. Do not walk in front of me. I do not need to be led. Come, walk next to my family and me and be our friends, so together we can build a brighter future.

Hancock senior maintains vitality as avid runner

BY LIZ HAAS

For those who consider how old a person is as an estimate of their physical age, Bill Morse could cause confusion.

The 74-year-old is an avid runner and racer who placed first for his age division in the

Bill Morse

Soil Stewardship Race, a 5K run, in Pass Christian with a time of 29:44.

Morse's day starts at 5 a.m. He runs six miles three days a week, 10-12 miles one day a week and works out three days a week at Nautilus in Diamondhead.

"If I had listened to people about how I should act physically at 74, I'd be in the grave. I don't know how I'm supposed to feel at 74, I only know the way I do feel," Morse said.

The Cuba, N.Y., native married Dorothy Young of Kosciusko while serving in the military and moved to Hancock County in the early '60s to be closer to his wife's family.

Morse retired after 24 years of service in the Air Force, where he served as logistics planner and programs air inspector, and then moved to Mississippi.

"About six years ago, my doctor advised me to start walking after an operation I had.

"I noticed that I started feeling good so I began to jog," he said.

Morse said the only type of recreation he previously did

was hunt, fish and work in his garden.

He said, "Athletic-type sports never appealed to me at all. I never thought about jogging."

Since that time, he has also taken up swimming and biking.

"When I injured my leg a few years ago, I learned to swim and ride a bike because I wanted to keep my endurance and strength up for when I got bet-

much competition in my age group in races in this area. I notice that the number of runners starts to drop off between the ages of 60 and 65."

"Like longer races because in the shorter ones everyone, including myself, seems to run faster because they don't have as far to go," Morse said. "My ideal race would be about 55-60 degrees with no wind, a soft

ter," he said.

Morse said he got involved in racing when his neighbors, Mel and Jerry Fisher, convinced him to compete.

"In my first race, the Gulf Coast Classic, a 10K race, I tied for last place; but I finished and that's all I expected to do," he said.

He didn't race for the next two years.

"I ran again in the Gulf Coast Classic and did better," he said.

He said, "There's not too

track to run on and plenty of food at the end."

Morse said he does his running alone.

"Running gives you a lot of free time to meditate and get to know yourself. It gives you an appreciation of your body because you learn to know your body."

Bay High boys extend winning streak at track championship

The 1993 Bay High School Boys Track Team extended the streak of District 8 Class 3A team championships to three consecutive years by capturing the title on Wednesday, April 21 at the Class 2A-3A-4A meet at Hancock High.

The squad had participated in five other meets this year at St. Stanislaus, Long Beach, St. Martin, Moss Point and Hancock in preparation for the district meet.

"We had expected to have a very good team this year, but were hurt early in the season by several key upperclassman runners deciding not to partici-

pate this year," said Coach Rocky Gaudin.

"These included the defending state champion 110 meter high hurdler, one of the top 3,200 meter and 1,600 meter runners on the Coast and a key middle distance and sprint relay runner."

"We also lost our shot and discus specialist to Hancock, and he was the state runnerup last year as a sophomore."

"As a result we had to work hard during the work meets and invitational meets to put our squad together."

At the district meet the squad finished as follows:

(All of the first and second place finishers qualified for the South State 3A Meet on Saturday, May 1 at Meridian High School.)

Shot Put: Jaiye Daniels (11) third and Keith Corr (11) fourth.

Discus: Richard Benton (9) second.

High Jump: Tripp Whavers (12) first and Leroy Hawkins (10) second.

Long Jump: Charles Hawkins (11) first and Tripp Whavers (12) second.

Rocks take sixth 4A track title

Special to the Echo

Wednesday evening, the St. Stanislaus track and field team claimed its sixth straight Division 8 Class 4A title.

Coming into the meet as an underdog, the Rocks used strong performances in the field events to build a substantial lead.

In Monday's field event finals they placed first in three of the six events with Vince Moran in the high jump, Bryce Gex in the long jump, and Brandon Benoit in the triple jump.

In addition, Todd Black placed second in the pole vault and Benoit placed second in the

long jump.

In the 3,200 meter run, Gilly Chamberlain and Scott Black took second and third, respectively.

In Wednesday's finals, the team began where it left off, scoring in every event but one. Lloyd Boudreaux began the assault with a third place in the 110 meter hurdles. This was followed by a second place finish by Jason Parker, David Gianechini, Drew Scaife and Neil Heitzmann in the 800 meter relay.

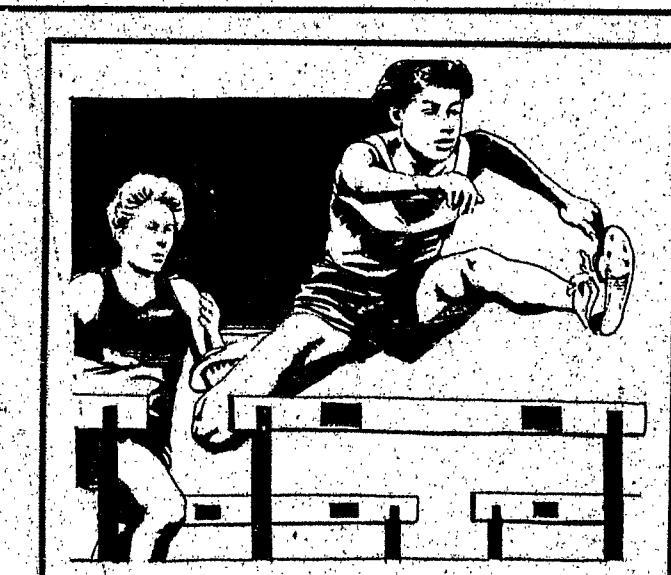

Chamberlain and Black repeated their earlier performance in the 1,600 meter run,

Rounding out the meet were Alex Perez, Nathan Middleton, Gex and Benoit, third in the 400 meter relay; Heitzmann and Parker, second and fourth in the 400 meter dash; Gex and Boudreaux with a one-two finish in the 300 meter intermediate hurdles; Scaife and Gianechini, second and third in the 800 meter dash; and Benoit with a fifth in the 200 meter dash.

The most exciting race of the evening was the last. After

FISHIN' Y'ALL

By Jim Maness

Bryan Bayou is great alternative to long trip to Chandelier Island

It's time to go fishin' y'all. Before I get into the fishin' report this week I feel I need to say something about the Bureau of Marine Resources. Many times in the past I have stated the folks at BMR were less than responsive to the needs of everyday fishermen than they should be. That condition has dramatically changed with the replacement of the previous enforcement chief.

The new enforcement chief is Terry Baker. We are indeed fortunate to have a person of Baker's talent and empathy at BMR. He is apparently doing everything humanly possible to make the enforcement personnel at BMR identify with us common folk.

It is a refreshing and much needed change in policy. I am informed that complaints are handled at once, and a general spirit of cooperation now exists between the enforcement personnel of BMR and the general public.

This week the bulk of the report comes from Bordages Fish Camp.

Hang on, for I got some heavy-duty stuff I am gonna lay on ya'.

A couple of boats left out of Bordages for the Chandelier Islands last week and they came back with some logs and that were called speckled trout.

According to Tommy Bordages he thought the fishermen had an ice chest full of reds because the trout were so big. He claims that they were in the 4- to 5-pound class. That's a pretty heavy-duty class. Matter of fact, those trout were too big to go to class unless they were graduate school trout.

Anyway, the trout were caught with Mirror Lures. I was not able to find out what color was used, but this time of the year the 52M18 seems to be the best producer out in the Chandelier area.

Tommy said the trout were caught wade fishin' around the islands. This is a good time to

mouth of Bayou Caddy.

This bayou is called Bryan Bayou. If you have been reading the paper lately, you might be interested in knowing that Bryan Bayou is the bayou that makes Point Clear Island an island for the purposes of placing a gambling boat in Bayou Caddy.

Anyway, Bryan Bayou runs all the way to Three Oaks Bayou. The bayou has numerous cuts and small bayous running off of both sides all the way along its length. These cuts, etc., have been producing some really nice reds and a few keeper trout. The holes in the inside of the bends of the bayou have been producing sheephead and drum on a regular basis.

The really nice thing about Bryan Bayou is that it allows you to travel through inside, protected waters, to get to some nice fishing spots. Since we have been having some rather rough water over the past several weeks, it is important to find inside protected routes to fishin' areas.

Bordages Fish Camp has homemade charts of the Bryan Bayou area. Tommy Bordages said a chart is important because "it gives you something to look at when you can't figure out where the hell you are." Good point, Tommy.

Bordages reports, of all of the trout tagged and released last year not one has been caught and returned. He thinks that all of the trout died when they were caught and released. Now where have we heard that before?

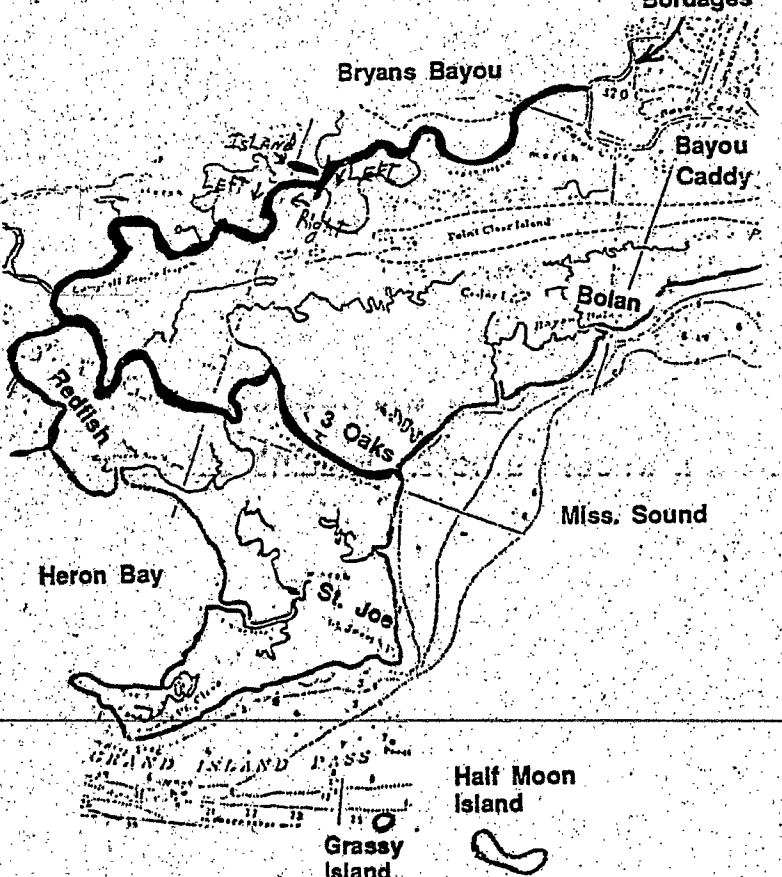

Don't bother trying to crab in Bayou Caddy. The creabs are reported to be scarce. The ones that are being caught are small and light.

Don't even think of trying to get live bait. In fact the bait tank at Bordages is filled up with bull frogs. There was some obscure remark that bull frogs make excellent bait for catching Lemon fish, but I think that the bull frogs in the bait tank were intended to be used for "feeding time" for species homo sapiens — people food.

Tommy said to bring the kids by if they wanna see a whole big bunch of live bull frogs. But you better hurry, 'cause his family has been casting hungry eyes in the direction of the bait tank.

This week's wonderful wise words: Fish are where you find them.

Hurray for Terry Baker at BMR, turtle.

Thanks to the policies of Mr. Baker, a lot of folks think that there is no longer an 'us versus them' attitude. This is good for everyone.

However, if you violate the law you will still get a ticket. That will not and should not change.

With that out of the way, I gotta talk at ya' about the fishing report.

wade fish by the Chandelier Islands as the water is still cool enough that you don't have too many sharks wantin' to eat the fish off of your line.

For those folks who don't have a ship capable of going out to the Chandelier Islands, you can catch some fish close to the boat launch by going to the first big bayou on the right, after you leave Bordages, heading to the

Fishermen's Seafood Fest Saturday on Lower Bay Rd.

The Gulf Coast Seafood Producers and Consumers Association will host the first annual Fishermen's Seafood Festival Saturday, May 1 beginning at 11 a.m. at Bea's Arcade, Lower Bay Road off Highway 90, Waveland.

Volunteer cooks include Lee Klein, "Poochie" Luxich, Willy "LumpLump," Irvin Greene, Robert Peterson and Oliver Sahuque.

Seafood platters of fish, shrimp and oysters will be available for \$3. Also offered are gumbo, hamburgers, boiled crawfish, a pig roast, beer and soft drinks.

Music during the day will be provided by Joe Matherne and Sunshine featuring the Irish Channel Horns, as well as a special reunion of the original "Speedo and the Rocket 88's."

Proceeds from the event benefit the Fishermen's Association. According to member Tommy Bordages, the organization of recreational and commercial fishermen strives to "protect our resources through better laws and regulations." All fishermen are welcome.

Take outs and delivery are available. For additional information, call 467-0650.

Oystermen must purchase new licenses for extended season

Oystermen wishing to harvest during the upcoming extended season will have to purchase new licenses.

The season will be extended for all public reefs until May 15, about two weeks beyond the traditional closing date of April 30, but current oystering licenses will expire April 30.

Any and all reefs may be closed for public health reasons during the extended season. Tommy Bordages, BMR shellfish program coordinator, said new licenses should be purchased at

the BMR office west of Edgewater Mall in Biloxi before Saturday, May 1, if oystermen want to fish over the weekend.

The new licenses will be valid throughout the 1993-94 oyster season.

Licenses may be purchased Monday through Friday between 8 a.m. and 5 p.m. Licenses will not be sold Saturday or Sunday.

A resident commercial oyster-tonging license costs \$50 per vessel. A resident commercial oyster-dredging license

costs \$100 per vessel. A resident recreational oyster license costs \$10 per individual.

Bruisers advance to state

Special to the Echo
It was a perfect weekend for a perfect win as the Under-12 Division II (Premier) Bay Area Youth Soccer team, the Bruisers, captured the MYSA State District 4 Soccer Tournament

championship.

The tournament, held this year in Ocean Springs, is a play-down to determine the final teams to advance to state competition.

Both Recreational (Division III) and Premier (Division II) teams participate in the all-age group tournament and consist of teams from all along the Gulf Coast to Pascagoula and as far north as Hattiesburg.

Only two teams from each age group advance to the state competition, which will also be held this year in Ocean Springs May 8 and 9.

The Bruisers, coached by Art Rieben and Jerry Ross, was the only BAYS team to advance to state.

The Bruisers won by defeating Ocean Springs 4-0 and BAYS 5-0.

Rieben stated, "This team played outstanding soccer against two very good teams. They have worked very hard together all season long, and it was a well-deserved win."

"We really couldn't have done it without the support of the parents."

Ross commented, "It is a thrill to watch these boys play. Everyone contributes, and you can really see them having fun playing the game."

The Bruisers dominated play by executing a swift offensive attack with forwards Jason Rieben and Jonathan Gagnon and midfielders Jason Platz, John Rich and Brandon and Greg Dupuy.

Fullbacks Doug DeGeorge, Edward Flores, Robert Harms, Jack Ohman and Brandon Everett prevented any kind of offensive attack by the other teams completely shutting them out, while goalkeepers Justin Wadsworth and Jay Saucier did not allow any ball to enter the goal.

"We are going to face some very tough teams in state this year. If they continue to play their style of game, they should do well," said Rieben.

Only eight teams from each age group will play in the Mississippi Youth Soccer Association (MYSA) state competition.

MYSA in Jackson will also play host to the Southeast Region III Cup Tournament June 13-20 when teams from all the southeastern states will participate in the USYSA-sponsored tournament.

Dolphins go 3-2 in district play

The Dolphins, representing the Bay Area Youth Soccer league, ended their season with an impressive showing at the Southern District Tournament last weekend at the Jackson County Soccer Complex.

Playing in the Under-8 Division, the team won two games versus one defeat on Saturday and split two decisions on Sunday.

In their initial contest, the Dolphins defeated the Gulfport-based Hurricane Busters by a score of 1-0. The lone score came off the foot of Ryan Mullin with an assist going to Ben Benvenuti.

In the second game, this time against the Red Devils from Singing River, Benvenuti fired an unassisted shot from 20 yards. This, however, was not enough as their opponents answered with two goals of their own.

Playing in the bottom bracket, the Dolphins met up with the

Dragons, a familiar rival from the BAYS league. With both teams showing the effects of a hard day's work, Sam Tart of the Dolphins provided two scores to catapult his team into the second day of the tourney.

Day two began on a good note with Colin Wilson and Michael Kivlan connecting for goals as the Dolphins defeated the Singing River Raiders 2-0. The Hattiesburg Bulldogs ended the Dolphins' quest with a fourth quarter score and a 1-0 heartbreaker.

Allowing only three goals in five games speaks volumes for the defense of the Dolphins. Led by standouts Josh Lingsch, Daniel Ladner and Blaine Durbin, shots on goal were held to a minimum. When they did get through, keepers Jacob Durbin, Tart, Kivlan, and Mullin, most often than not, were there to make the play.

The Dolphins placed first in BAYS league play.

Former basketball players needed for alumni game

Bay High and St. Stanislaus basketball players from years past are sought for an alumni benefit basketball game tentatively set for May 30.

In conjunction with the alumni football game, the basketball game will also benefit the schools' athletic programs.

For additional information, call Matt Rosetti (St. Stanislaus) 467-1191 or Dexter Bell (Bay High) 466-3132.

Rocks capture 8-4A golf title

The St. Stanislaus Rock-A-Chaw golf team claimed its first ever division championship on Monday, April 26 in Picayune at Millbrook Country Club.

The Rocks finished first with a team score of 325, followed by Picayune with 327 and d'Iberville with 330 in the seven-team tournament.

The Rocks were led in the 18-hole tournament by Heather Warner, Charlie Nelson and Ashley Cox, all shooting a 79. Michael Gaines shot an 88 and Mark Schutt a 94.

"We have really played well late in the season," said Coach Genin. "We began two weeks or more before most teams and it has paid off for us."

"All season the team believed

we could take first, and we did.

"I am especially glad for the players who have been with us since seventh grade; this is what they have waited for," said Genin.

"We had some big scores from Charlie and Mike to help get us over the hump."

Warner and Cox have been consistent low scorers all year, and lately Mark Schutt has come on strong for SSC. The title now moves the Rocks into state competition on May 10-13.

The coach and players expressed thanks to Mike Burke and Janice Preble and all members and board members of Pass Christian Isles Golf for helping them this season.

BHS/SSC alumni game still needs players

The second annual Bay High/St. Stanislaus Alumni Football benefit game is still in need of former players.

The Saturday, May 29 game will be played at J.D. McCulloch Stadium.

Proceeds from the event fund the schools' athletic booster clubs and a selected local charity.

The game will be a full-con-

tact football contest with 11 players from each school on the field.

Practices are currently underway. Alumni interested in playing in the game are to call Logan, 452-4813; Joe Gex, 467-9507; Jerry Spell, 467-9507; Mike Proulx, 467-7516 or 452-4316; Cherrie Monti, 467-9779; or Roger James, 467-6611.

Chamberlain claims first in Jourdan River Classic

Special to the Echo
By Basil Kennedy

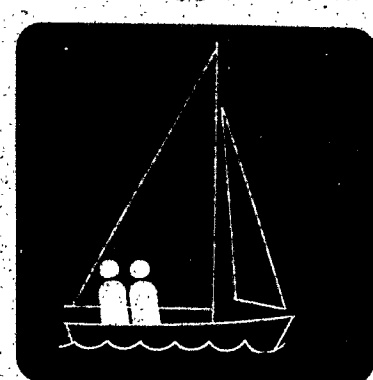

Gilly Chamberlain joined some of the Coast sailing greats such as Marc Eagan, Woody Stieffel, Bubby Eagan, Danny Killeen, Corky Hadden and others by winning the 1993 edition of the Jourdan River Regatta April 24-25 at the Bay-Waveland Yacht Club.

He accomplished this feat in fine fashion with two firsts and was assisted by the crack crew of Kippy Chamberlain and Richard Mestayer in the Flying Scot Division.

In second place was John Burke of Long Beach Yacht Club with Leo Potvin representing Ocean Springs Yacht Club taking third.

Steve Benvenuti in the Channel Cat chalked up two firsts to win the PHRF division. He was followed by Rep. Gene Taylor in Calabazita with second and third and Loophole sailed by Tom Allen of Pass Christian with a fourth and sec-

ond. Van Tanner was close behind with a fourth and third. This year's race had a new twist with the introduction of a Poker Run. Each contestant who completed the course was given two cards each day with a final card being given at the trophy presentation.

Best hand (three queens) was the recipient of a pair of prime rib dinners at Casino Magic. Everyone who had a pair or better also got a deck of cards. Power boats were also eligible and

competed. Winner was John Burke of Long Beach Yacht Club.

The series was sailed under optimal conditions with brisk winds and sunshine. The river still had its usual surprises of

erratic wind shifts, treacherous currents and unmarked shallow waters," said BWYC commodore Anthony Trapani.

The race is used as a tune-up series to begin the racing season at Bay-Waveland.

HHS track members advance to South State

Hancock High School will be sending several track members Saturday to the South State track competition in Amite County.

Qualifying during a recent Division 8, 4-A meet were: Miguel Smith, first place — shot put; Nick Munsch, first place —

110-meter hurdles; Angie Reynolds, second place — 100-meter hurdles; and Jennifer Richards, Sandra Blakely, Rassa Lemond and Jimmy Stewart, second place — 400-meter relay team.

Smith set a division record with a 48-foot 8-inch throw.

RSVP celebrates two decades

Charter members of the Hancock County Retired Senior Volunteer Program were recognized at a recent 20th anniversary brunch at Diamondhead Days Inn. Pictured in the bottom photo are from left, Mrs. Rita Marti, Carl Baldenhof, Mrs. Sarah Williams, Gordon Stone, Mrs. Mattie Sams, and Mrs. Ina Piazza. These were honored for having given 20 years of service to RSVP. All members of RSVP were honored. Other charter members still active are, Mrs. Ethel Christmas, Ada Pollard, Rometta Roberts, Ada Schaeffer, Allie Mae Scott and Winona Zimmerman.

Carl Baldenhof, right, the first person to sign up for the Hancock County Retired Senior Volunteer Program 20 years ago, has the honor of helping Janet Aime, RSVP advisory council member, cut the cake at RSVP's annual birthday party.

Watson John, above, a member of the RSVP Singers, joins the *Easter Parade* at the annual anniversary celebration with 'hat and all.'

Among the members of the RSVP's Singers performing at the 20th anniversary celebration are from left, Sue Hale, director; Rita Marti, Gwen Ishem, Conrad Mauf-ray, Ernestine Schneider and Lena Mae Lewis.

IN AND AROUND DIAMONDHEAD

By Margaret Williamson

Seniors 'Day in the Bay' begins Friday

SENIOR CITIZENS, ATTENTION!

All ladies and gentlemen (60 years and over) are invited to a 'Day in the Bay'.

A bus will be picking you up starting this Friday, April 30 at 8:30 a.m. at the Diamondhead Dairy Queen and going to the Senior Citizens Center in Bay St. Louis where you will visit friends, have some activities and a nice lunch, and then may be some shopping in the afternoon returning to Diamondhead about 3:30 p.m. Ya'll come now!

PROUD GRANDPARENTS

Joe and Marilyn Cuccia of Diamondhead must have been popping off those buttons as they watched their grandchildren Ryan and Chantelle Chot perform in the Perk Players of Mississippi Gulf Coast Community College production of "Peter Pan" April 14-18. These two talented youngsters have previously performed in the "Nutcracker" at the Theater of the Performing Arts in New Orleans.

AL-ANON GROUPS FORMING

St. Thomas Episcopal Church in Diamondhead is forming an ACOA (Adult Children of Alcoholics) and Al-Anon (support group for persons living with alcoholism in their families or with others) group for the Diamondhead area. An informational meeting will be Thursday, May 6 at 7 p.m. at the Diamondhead Church. Everyone is invited. For more information, please call the church office at 255-3213.

THEY'RE OFF!

Hope you will be among the number in the 'grandstand' at the Day's Inn in Diamondhead for the Diamondhead Boaters Association's Kentucky Derby

party Saturday, May 1 at 2:30 p.m.

A buffet featuring fried chicken with all the trimmings will be open 2:30-4:30 p.m. Cash bar will be available serving beer and wine. Yes, even Mint Juleps and your favorite house brand drinks will be served. Big screen viewing with down-home music by Mae McGill promises a fun-filled afternoon. Pari-mutuel will be open at 2:30 p.m. and close 15 minutes before race time.

Registration for door prizes will be at the pari-mutuel parlor. Good luck to all. I hope your 'favorite' wins.

HOLE IN ONE

Applause, applause to Dutch Eberhart, a 10-year resident of Diamondhead for making that 148-yard drive on the Cardinal No. 4 the other day.

GOOD 'LADIES'

Those wonderful ladies of Annunciation Parish St. Vincent de Paul Society are 'busy bees' these days preparing for their Spring Boutique and Luncheon on Wednesday, May 12 at 11:30 a.m.

The exciting news this year is that instead of Jourdan River Shores club, where this event was held in the past, this year they will meet in their newly renovated Annunciation parish Hall.

This project was a true 'labor of love' on the part of the many gentlemen from the Men's Club who participated in making this fine building suitable for church meetings, CYO, the Ladies and Men's clubs, wedding receptions, etc.

Thanks go to Ed Gobert, Tony Heyd, Milton Bauer, Benny Mistretta, Stan Robert, Bob Valigosky, Conrad Bourgeois and any others in Diamondhead who worked so hard on this renovation.

I'm sure all of Father Henry's flock will enjoy this hall for all

occasions. Thanks, gentlemen. You know who you are.

If you plan to attend the luncheon, please get in touch with one of the members for tickets, which are \$8, or call 255-1709. All of the needy in Hancock County benefit from this society.

MOTHER'S DAY

We honor our lovely Moms on Sunday, May 9, which is fast upon us. For your special tokens of remembrance to your mother such as fresh flower bouquets, baskets, corsages, dolls, etc., Diamondhead has a new florist, Aimee Grego at Diamondhead Florist, and K & S Greenery at 15 Leisure Time Drive, Diamondhead.

ADULT DANCE FOR DYD

All Diamondhead residents are invited to an adult dance Saturday, May 15 at the Community Center, sponsored by the Diamondhead Youth Organization. Music is by File 'Gumbo. Hors d'oeuvres and set-ups for BYOB will be provided. Tickets are \$25 per couple or \$12.50 single.

Working with the youth in Diamondhead is so rewarding, and help is needed in all activities. Come join the folks who are giving so much of their time and energy to our Diamondhead kids.

The next DYD meeting will be May 10, 7 p.m. at the Community Center. And don't forget to call Vicki Marks for tickets to the dance at 255-1399.

DIAMONDHEAD AARP

Althea Burge, executive director of United Way of South Mississippi, will be guest speaker at the next AARP meeting Tuesday, May 4 at 3 p.m. at the Community Center. Her topic will be Neighbors Helping Neighbors.

Please remember that the Food Pantry is the service project of the organization and bring at least one item to the May meeting. Thank you!

SUPPORT GROUP

The Diamondhead Diabetic Support Group will meet on the first Tuesday of every month at 7 p.m. at the Community Center.

May 4 is the next meeting. Representatives of blood glucose monitor companies will demonstrate how diabetics can easily test their blood sugars daily, and an educator from a local hospital will assist. All this and more valuable information and assistance is available to anyone involved with this disease.

HANCOCK SALUTES

The Hancock County Port & Harbor Commission, the County Board of Supervisors, and the Hancock County Chamber of Commerce celebrated 30 years of progress by saluting Hancock's Business and Industry. Congrats to Drs. Gary and Jan Wiley, owners of Rehab One Inc. in Diamondhead who were awarded Diamondhead's Business of the Year.

CHANGE OF SERVICE NOTICE

Waste Management of Mississippi would like its Diamondhead customers to know that the new waste collection program begins on Monday, May 3.

The program includes once-per-week garbage and trash collection and once-per-week pick up of recyclable materials.

This includes clean plastic containers, glass, tin cans, aluminum and newspapers.

Recycling pickup is on Wednesday, and garbage and trash on Friday. They recommend your collectibles be placed within five feet of the traveled road by 6 a.m. of the scheduled day.

Waste Management is anxious to provide good service, and

everything.

"Lately we have received a barrage of petitions, and I think the residents are tired of it."

Mistretta added the dissatisfaction stems from the way monies are being spent.

Board secretary Briely Acker reported the resolution effort is not unusual as four to five years ago a similar incident occurred which resulted in a lawsuit.

"You are always going to have small groups of people unhappy with the way things are run," she said. "The idea is what they do or don't be able to do."

Mistretta explained that the petition to be valid must represent at least 10 percent of the total POA membership. She said the petition has approximately 350 members.

Diamondhead petition support questioned

BY JACQUI COCHRAN

"It's factual," Diamondhead Property Owners Association (POA) board of directors member Bennie Mistretta stated. "There is a petition going around for another election of POA board members."

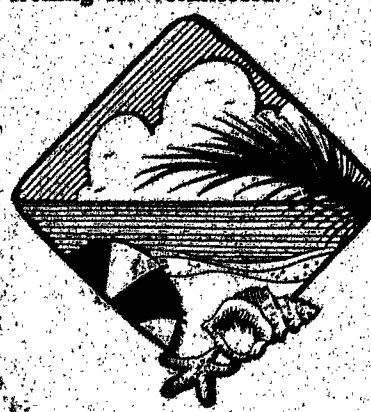

Mistretta commented, "Some residents feel they are not being represented properly."

As to the support for the petition, those allegedly providing the legal representation and re-election, advocacy have refused comment to The Sea Coast Echo.

POA board president Peter Casanova said, "I haven't seen it (the petition). As to the support, I don't know. There is a small group of residents who are not being represented with

Pass Beach Sweep needs volunteers

Spring Beach Sweep '93 is looking for volunteers.

Began in 1987, the Saturday, May 1 event is part of a semi-

annual effort to rid coastal waterways of unsightly and hazardous marine debris. Last fall, some 2,000 volunteers collected more than 26,000 pounds of debris, mostly plastics, in the half-day cleanup.

According to chairman Paul Bode of Pass Christian, volunteers will meet at the BP station, corner Beach and Market Street, at 9 a.m. Ran Jones will coordinate activities.

Volunteers will be provided with gloves and bags. Data cards will not be used, said Bode.

Camille Tate is also coordinating a segment of the cleanup in the Pass Christian area.

SSC junior high track team places third in conference

The St. Stanislaus junior high track team finished third in the conference meet.

There were several seventh, eighth and ninth grade students on the team, many competing for the first time, according to Coach Larry Ramsey.

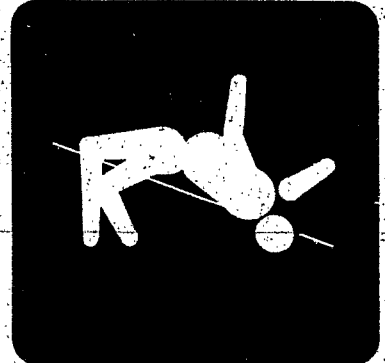

team, Derek Bradley, Jerry Polk, Tyree Haynes and Joshua Williams, who finished second.

Bradley also finished second in the 100 meter dash, as well as David Bell in the discus and Richard Mestayer in the pole vault.

Other good performances were provided by Kippy Chamberlain and Mike Mancuso in the 1600 meter run, Scott Escher in the 800 meter run, Bradley in the 200 meter dash, Cory Ray in the pole vault, James Wadsworth in the long jump and Lang Williamson and Willie Rayford in the shot put.

"This team has been a lot of fun to work with," said Ramsey. "They were all faithful in practice attendance and worked very hard to improve."

Team members include: Cory Ray, Frederic Lewis, David Bell, Brian Bilich, Casey Swanson, Chris Middleton, Joshua Williams, Kippy Chamberlain, Richard Mestayer, Jerry Polk, Mike Mancuso, Chris Ray, Matt Dillenkofer, Willie Rayford, Lang Williamson, Derek Bradley, Tyree Haynes, James Wadsworth, Scott Escher and Ricky Hockert.

"While the team did not finish as high as they would have liked to in several meets, they did improve to the type of team that finished in the middle the last three weeks," said Ramsey.

Excellent performances were provided by the 400 meter relay

NOTICE OF SALE

WHEREAS, on December 16, 1985, JAMES K. MARTINICH, SR., executed a Deed of Trust to GEORGE H. LIPSCOMB, Trustee, for the benefit of HARRY T. SMITH and JEANETTE S. SMITH, which Deed of Trust is filed for record in Book 283 at page 542 in the land records in the office of the Chancery Clerk of Hancock County, Bay St. Louis, Mississippi;

WHEREAS, said Deed of Trust authorized the appointment and substitution of another Trustee in the place of the Trustee named in said Deed of Trust; and

WHEREAS, default having been made in the terms and conditions of said Deed of Trust, and the entire indebtedness secured thereby having been declared to be due and payable pursuant to the terms of said Deed of Trust, and HARRY T. SMITH and JEANETTE S. SMITH, the holders of the note and Deed of Trust, having requested the undersigned Substituted Trustee to foreclose on the 14th day of May, 1993, offer for sale at public outcry and sell with legal hours at the main front door of the County Courthouse of Hancock County in Bay St. Louis, Mississippi, for cash to the highest and best bidder, the following described land and property, being situated in Hancock County, Mississippi, and being more particularly described as follows, to-wit:

FIRST: LOT 68, Second Ward, City of Bay St. Louis, Hancock County, Mississippi, as per present official map or plat of said City made by E. S. Drake, C.E. and filed for record in the office of the Chancery Clerk of Hancock County, Mississippi on May 1, 1922.

SECOND: Commencing at the point where the north-south R.O.W. line of St. John St. intersects the line between Lots 52 and 53, Second Ward, City of Bay St. Louis, Hancock County, Mississippi, thence South 70° East along said northerly R.O.W. line of St. John St. 120 feet to an iron stake which is the point of beginning; thence further South 70° East along the north S.O.W. of St. John St. 12.5 feet to the line between Lots 52 and 53, Second Ward, City of Bay St. Louis, Hancock County, Mississippi; thence North 70° West to a point which is North 21° 14' East of the point of beginning; thence South 21° 14' West to the point of beginning. Being a part of Lot 52, Second Ward, City of Bay St. Louis, Hancock County, Mississippi.

I will convey only such title as is vested in me as Substituted Trustee.

WITNESS MY SIGNATURE, this 16th day of April, 1993.

ADVERTISEMENT FOR BIDS
Notice is hereby given that sealed bids for the construction of Portland Cement paving improvements and related work, at the Port Blavie Industrial Park, Hancock County, Mississippi, will be received by the Hancock County Port and Harbor Commission at their offices at 708 US Highway 90, Waveland, Mississippi, until 11:00 AM on Monday, May 21, 1993, then at said office publicly opened and read aloud.

The work consists of the concrete paving of approximately 1,350 square yards of wharf apron and truck parking area at the Park's Ship Terminal truck site, and all incidental work as detailed on the Plans and stated in the Specifications.

The General Requirements: Bid Form, Contract Form, Performance Bond Form, Payment Bond Form, Plans, Specifications, and other Contract Documents are on file and may be examined at the Commission's offices, 708 US Highway 90, Waveland, Mississippi, during regular working hours.

A complete set of the Contract Documents may be obtained at the office of Cortech, Inc., Consulting Engineers, 833 US Highway 90, Hancock Square, Suite A, Bay St. Louis, Mississippi 39520 (467-9439) by licensed Contractors upon payment of twenty-five Dollars (\$25.00) for each set. This payment is non-refundable.

Each bid must be accompanied by a certified check, cashier's check, or bond acceptable to the Owner in the amount equal to at least five percent (5%) of the total amount bid and payable without conditions to the Owner as a guarantee that the bidder, if awarded the Contract, will promptly execute a Contract in accordance with the proposal and all terms and conditions of the Contract Documents.

Additionally, all prospective bidders are cautioned that, in order to be valid, all bids in excess of \$50,000 must clearly show the Contractor's Mississippi Certificate of Responsibility Number on the outside of the bid envelope.

The Owner reserves the right to waive any informalities in the bid, any or all bids.
No bidder may withdraw his bid within sixty (60) days after the actual date of opening thereof.

COMMUNITY SERVICES

Adult Literacy Education

Tutoring sessions for adults who want to learn to read and write are available through the Hancock County Library System. The program is open free of charge to any adult aged 16 and above who wants to improve reading skills to a grade five level.

Each student meets one-on-one with a certified tutor trained in the use of the Laubach Adult Literacy method. Student/tutor units meet at a time and learning center convenient to both. Learning centers for literacy are currently located in Bay St. Louis, Kiln, Waveland, Diamondhead and Pearlinton.

Call June Piley, Hancock County literacy coordinator, at the Bay St. Louis Library, 467-5282, for information. Persons who wish to teach adults to read as volunteer literacy tutors are also encouraged to call.

American Cancer Society

Assistance to victims of cancer is available through Hancock and Harrison county chapters of the American Cancer Society.

Necessary items for patients, such as dressings, ostomy and sickroom supplies are available to those in need. Equipment which may be loaned to patients includes wheelchairs and hospital beds. Assistance is available for transportation to qualifying hospitals.

Several rehabilitation programs are offered, including "Reach To Recovery", in which volunteers who have had mastectomies visit new breast cancer patients (with approval of physician) to assist in emotional, physical and psychological rehabilitation.

Support programs are also available to ostomy and laryngectomy patients.

American Cancer Society

service requests in the Hancock County area may be directed to service and rehabilitation chairman Deeta Ellzey, 255-4338.

Battered Women

Free counseling is offered for Hancock County women suffering from emotional or physical abuse. Connie Avera, outreach coordinator with Gulf Coast Women's Center, is available each Thursday from 1 until 5 p.m. at the Hancock County Youth Court building on Court Street.

All cases are confidential. Call 435-1968 collect for appointment.

The Gulf Coast Women's Center, a United Way agency, also offers an advocacy program for victims of sexual assault and domestic violence. A 24-hour crisis line is available by calling 435-1968.

Bay-Waveland Crisis Pregnancy Center

The Bay-Waveland Crisis Pregnancy Center offers free counseling, pregnancy tests, maternity and baby clothes.

Located on Highway 90, next to the Unique Shoppe in Waveland, the center offers a 24-hour hotline, 467-3444.

Blood Pressure

Retired Senior Volunteer Program sponsors free blood pressure testing Tuesdays, 9:30-11:30 a.m., American Legion Post No. 77, Waveland; Wednesdays, 10:30-11:30 a.m., RSVP office, Senior Citizens Center, Old Spanish Trail, Bay St. Louis.

Hancock Medical Center Women's Auxiliary (Pink Ladies) conducts free blood pressure testing at the hospital, 10-11:30 a.m. Tuesdays.

GED Classes

Hancock High School offers a special GED program for students who wish to brush up on skills preparatory to a college

degree. Each student can find his weaknesses and strengths by taking a trial GED test and concentrate on his needs with a planned individual curriculum.

Students unable to attend upper high school classes can study with a Mississippi certified teacher. By passing the GED test, they earn the equivalent of a high school diploma.

Classes at HHS are Monday and Tuesday from 9 a.m. until noon with Mrs. Lois Abrams teaching in Conference Room B of the administration bldg. Night classes are Monday and Wednesday, 6-9 p.m. with Mrs. Vicky Compston and Charles Rolison teaching in the junior high building.

Students may register at a class meeting, then study toward their own goals. Call Mrs. White at 467-2251 for more information.

Hancock County Humane Society

The Hancock County Humane Society operates a flea market in Bay St. Louis on Highway 90 and Drinkwater. Proceeds help needy animal owners with spay-neuter assistance, emergency pet food and emergency medical help.

The society is in constant need of good, but unwanted, articles of every description to sell in the thrift store. Gifts are tax-deductible.

Hours are 9 a.m.-1 p.m. Monday; 10 a.m.-3 p.m. Tuesday-Saturday.

Humane Society meetings are held at 7:15 p.m. on the third Monday of each month at the Waveland Library on Coleman Avenue. For additional information, call 467-7686.

Legal Line

Volunteer attorneys answer legal questions from the general public from 6 to 7 p.m., first Wednesdays at 1-374-4160. The service is sponsored by Harrison County Young Lawyers, South Mississippi Planning and Development District Area Agency on Aging and South Mississippi Legal Services Corporation.

Money Management

The Consumer Money Management Center serves the public by providing free financial consultations as well as informational literature and seminars for employers, educational institutions and civic and professional groups.

Information and assistance from the center relates to various aspects of personal money management including budgeting, credit repayment, insurance, and investments.

The service is sponsored by Mississippi State University and Mississippi Cooperative Extension Service. To set up an appointment call Hancock County Extension Office, 467-5456.

Parkinson Support Group

There is a certain magic that takes over when people who share the same problem get together to help each other. Support groups are a blessing formed by closeness and love to help take away the sting that has resulted from the thought of being alone.

Parkinson Support Group is people helping people to go on living regardless of the odds, and to make a lemonade out of the lemon that has been dealt to them.

The public is invited to all meetings, which are held the second Sunday at 2 p.m. at Garden Park Community Hospital in Gulfport. For information, call 863-2929 or 467-0307.

PWA/HIV Project of Mississippi

The Hancock County branch of the PWA/HIV Project of Mississippi has an anonymous support group for persons with AIDS and another for their loved ones and caretakers. The Bay St. Louis based affiliate of the statewide organization

maintains a community house which serves Hancock County and west Harrison County.

For more information, call Edith Back at 467-2445 or Betty Brunner at 467-2205. In Harrison County, call 435-1029.

St. Vincent Thrift Store

St. Clare Conference, Society of St. Vincent de Paul operates a thrift store, City Hall Annex, Coleman Avenue. It is open Tuesday, Thursday and Friday from 10 until 3, and Saturday, 10 a.m. until noon.

All proceeds benefit the needy regardless of race or religion. An information and referral service is available from 1:30 until 3:30 p.m. on Wednesday. For additional information, call 467-0703.

Senior Citizens Center

Located in the Valena C. Jones Bldg. at 301 Old Spanish Trail in Bay St. Louis, the center serves Hancock County citizens 60 plus years of age.

Under the Hancock County Human Resource Agency, the center provides classes in ceramics, macrame, art, counted cross stitch, silk flowers, ornaments, framing and various other crafts. A morning snack is provided with donations from various clubs and businesses.

The center has a contract to provide 35 home delivered meals a day to those seniors who cannot provide for themselves, and 25 meals for those who have a need for a hot well-balanced meal daily in the cafeteria at the center.

Transportation is provided through a contract with Coast Area Transportation for most seniors in the county to bring them into the center, or to take them to the grocery, doctor, etc.

The contract with Methodist Senior Services provides two homemakers for about two hours a week to homebound, needy seniors to do light house-keeping or errands for them. For more information, call

the center at 467-9292 from 7:30 a.m. to 3:30 p.m.

World famous snake charmers

Under the Big Top at NHCE

Hancock North Central kindergarten students transformed the gym into a circus tent for the second annual circus. More than 1,000 parents, students and friends watched the children entertain.

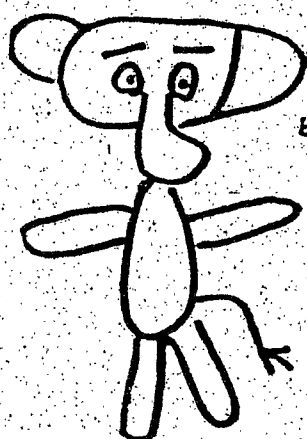

Included in the performance were ring masters, dancing bears and elephants, clowns, baton twirlers, daring acrobats, snake charmers, hula dancers, ferocious lions and roaring tigers. All 110 kindergarten students participated.

Circus 'trainers' were Millie Breun, Jean Gardner, Rhonda Golding, Jackie Necaise, Sara Necaise, Teresa Quave, Debbie Rosser, Suzette Shaw, Linda Vayda and Joan Wockomurka.

The circus production goes on the road today with a presentation at Gulfview Elementary.

Hancock Library System honors volunteers

The Hancock County Library System Literacy Program honored its volunteers last week at the Waveland Library as part of a National Library Week and National Volunteer Week celebration.

The program has 80 students and 44 volunteers under the direction of June Piley, program director, and assistant director Donna Hatchings.

Those who received plaques for five years as volunteers were Roy Burkart, a retired engineer who teaches mathematics, and Emily de Montluzin, a retired teacher who teaches English as a second language.

Other tutors were recognized for the time they have given to help enrollees in the literacy program.

teers help students in math, English, reading, spelling, job skills, life skills and writing.

The Programs offered include Job Opportunities and Basic Skills (JOBS), basic skills to prepare for the GED, reading and English as a Second Language (ESL).

Beatrice Ladner was presented with a plaque for 25 years of volunteer service to the library. She has been compiling the library's scrapbook for the past 25 years.

Barbara Hale was honored for the time she has dedicated to the library. She has helped since last September in many areas, including double-checking information on patron registration that staff members have entered into the computer system.

Beauvoir

Visit the Presidential house of Jefferson Davis

Special to the Echo

By Jim Petty

Beauvoir, meaning "Beautiful View" when translated from French to English.

Beauvoir, the final residence

Park director, "Beauvoir stands as a historical reminder of a living, breathing, ever changing memorial to a man, his turbulent times, and the idea of the American Republic as visual-

ities, a chapel and various other buildings. Then in 1957 Beauvoir was finally dedicated as a Park.

Currently on display at Beauvoir is the Davis House,

ic memorial service and the decorating of Confederate soldiers' graves.

In late October, approximately 350 re-enactors representing the states of Mississippi, Louisiana, Alabama and Florida flock to Beauvoir to perform a re-enactment of a Confederate camp of instruction and to recreate a small skirmish.

This year Beauvoir will host the first annual Victorian Christmas Celebration first week in December. This celebration will include the decorating of the Davis House, 1880 style decorations, coupled with a candle light tour of the house and the surrounding gardens.

While researching this article I decided to find out just how many local residents (Gulf Coast) had taken the time to visit Beauvoir. My own survey concluded that out of 100 questioned only 27 people out of 100 had visited the park.

The 73 people who had not visited Beauvoir, only vaguely knew what attractions the park had to offer.

According to Keith Hardison, "Over 90 percent of the visitors who come to the park are from out of town." Halat stated, "a recent study indicated that Beauvoir was the most visited landmark by tourists coming to the Coast."

The Gulf Coast community has many beautiful attractions to be thankful for, however, I encourage all of its residents to visit Beauvoir, and experience one of Mississippi's finest historical treasures.

Jim Petty is a freelance writer and a resident of Gulfport.

Beauvoir

of the first and last President of the Confederate States of America, Jefferson Davis.

As a significant landmark not only to the state of Mississippi, but also to the City of Biloxi, Beauvoir is one of Mississippi's finest historical treasures.

According to Mayor Pete Halat, "Beauvoir stands as a historical reminder of a period when our nation was divided, committed to a cause."

"On a more personal basis, Beauvoir is the kind of place where I can find peace and tranquility while strolling through the estate's back gardens."

To Keith Hardison, Beauvoir

ized by our Founding Fathers."

Privately owned by the Mississippi Division, United Sons of Confederate Veterans, Beauvoir's original buildings remain relatively unchanged since the late President's occupancy, 1877-1889.

Not only was Beauvoir called home to Mr. Davis for 12 years, but Beauvoir was also home to over 2,000 Confederate Soldiers of the Civil War. From 1903 to 1957, Beauvoir was transformed from the President's home to a Soldier's Home, consisting of two hospitals, 12 dormitory buildings, a small replica of a Sol-

diers' Dormitory, Confederate Cemetery, and two museums, depicting the history of the Confederate Soldier and the private lives of the Davis family.

Not only is Beauvoir historically rich, but the surrounding grounds, approximately 57 acres, display quite a picturesque scenery. Tall oaks, beautiful landscaped gardens coupled with a running brook grace the property, while the only inhabitants of Beauvoir, numerous gray squirrels, spend endless hours chasing one another.

Each year late in March, the Mississippi Gulf Coast Council of Garden Clubs sponsors the annual Spring Pilgrimage. The Beach Garden Society plays hostess at Beauvoir during the pilgrimage. This pilgrimage consists of the limited viewing of various historical homes, historical cemeteries, legendary oaks and various other points of interest on the Gulf Coast.

On the fourth Sunday in April, Beauvoir respectfully honors Confederate Memorial Day. This day consists of a publ-

Multi-modal transportation system viewed by officials

A meeting to discuss alleviating traffic congestion on the Mississippi Gulf Coast with a multi-modal corridor utilizing railroad right-of-way was held April 21 at the Mississippi Department of Transportation (MDOT) headquarters in Jackson.

Led by Southern Transportation Commissioner Ronnie Shows, representatives of Sen. Trent Lott and Congressman Gene Taylor, members of the Gulf Regional Planning Commission, representatives of CSX Transportation and MDOT leaders listened as former Federal Railroad Authority Administrator Gil Carmichael outlined the possibility of using the rail system now in existence, combined with a two-lane highway on each side, to run from Mobile to New Orleans.

"We need to make use of the multi-modal concept and take traffic off Highway 90 and Interstate 10," Carmichael said, "as well as realize the full potential of rail service."

The existing track, owned by CSX Transportation of Jacksonville, Fla., is high-quality, heavy-duty rail, according to Carmichael. CSX has shown interest in such projects by creating a Corridor Development Division.

Commissioner Shows and Carmichael stressed the problem of numerous roadway/rail grade crossings which would need to be eliminated for such a corridor system to be

successful.

"Under the federal Intermodal Surface Transportation Efficiency Act of 1991, funds are available for a feasibility study of this type of concept," Shows said, "and I would like to see MDOT present it, hoping to make the Gulf Coast corridor a national demonstration project."

Shows and others present noted the urgency of such a project due to recent growth and even bigger predicted growth of the Gulf Coast.

"It's exciting and challenging, and will make a tremendous impact on all of Mississippi," the commissioner said.

Winn-Dixie declares dividends

The board of directors of Winn-Dixie Stores Inc. declared a regular monthly dividend of 11 cents per share on the common stock of Winn-Dixie Stores, Inc., payable on May 3, June 1 and July 1, 1993, to shareholders of record at the close of business April 15, May 14 and June 15, 1993. The \$1.32 annual dividend rate represents a 10 percent increase over the previous fiscal year's rate.

Dedication planned for Holloway Complex

A new classroom and office facility will be dedicated as the Joe Earl Holloway Complex April 30 in ceremonies at the University of Southern Mississippi's Gulf Park campus.

The one-floor complex, to be named in honor of Gulf Park's late longtime dean, will house seven classrooms and office

space for the center's Education and Psychology Department. The facility is located on the northern end of the campus.

USM established an endowed scholarship for Gulf Coast students in memory of Holloway, the founding dean of the USM Gulf Coast regional campus, last December.

ERA Bayshore associates win

Herb Dubuisson, president of ERA Bayshore Realty announced his office received a superior performance award and was designated a top 200 national company in recognition

of outstanding achievement in closed sales.

ERA Bayshore recently held an awards dinner honoring top associates. Lorraine Bowes and Susan Smith each received an award for being a million dollar producer in 1992. Bowes has been a broker associate for seven years and is a licensed appraiser.

Smith, a sales associate for one year, also won the Spirit Award for outstanding service to her customers.

Patsy Dubuisson, ERA Bayshore Realty partner, received awards for being a two million dollar producer in 1992 and for being the top listing agent for 1992 in the ERA Southeast Louisiana-Mississippi region. She has been a sales associate for 20 years.

Harry Frierson received an outstanding sales award for selling seven million dollars of property in 1992. He placed 15th in the nation for ERA sales. He has been a sales associate for three years.

Kramer wins top award

Advanced Data Systems of Birmingham, Ala. recently received top award at the Seventh National Conference on Business Incubation held in Milwaukee.

John Kramer, formerly of Bay-St. Louis, and Dave Alexander of Birmingham, are co-owners and co-founders of Advanced Data Systems.

The company invented and manufactures the FMS 1000, an automated blood delivery system for post surgical open heart patients. The system is based on a medical device developed at the University of Alabama in Birmingham Hospital, making ADS the first private company to commercialize medical technology developed at UAB.

Kramer is the son of Mrs. Ida Kramer Irwin of Biloxi and the late Jack Kramer. He was in the first class to graduate from grade school at Christ Episcopal Day School in 1958; he was graduated from Bay Senior High School in 1962 and earned degrees in mathematics and computer science from the University of Southern Mississippi and the University of Alabama-Birmingham.

He presently resides in Trussville, Ala. with his wife and their two sons.

USM honors local students

The University of Southern Mississippi staged a ceremony April 22 to honor its top students for their various academic achievements—including some area residents.

A top women's fashion executive and Hazlehurst native addressed the honorees at a 10 a.m. convocation in USM's Bennett Auditorium—the restoration of which brought the University a Mississippi Historical Society award earlier this year.

Nina Elise McLemore, senior vice president of corporate development for Liz Claiborne Inc., shared some of her secrets of success with the gathering of honored students and their families.

Gulf Coast students honored included:

Bay St. Louis

Greer Ann Troups was honored by the School of Nursing for being listed in the National Dean's List. She is married to Robert Troups.

Alana Noonan Meador was inducted into Phi Kappa Phi, a scholastic honor society. Meador is married to Brian Meador. Craig M. Artigues was

inducted into Gamma Beta Phi, an honorary and service organization for students in the top 20 percent of each class. Artigues is the son of Maurice J. and Eloise G. Artigues.

Pass Christian

Emma Jenkins Laurie of Pass Christian received the John E. Wallace Award for most outstanding history major at USM Gulf Coast. Laurie is a senior majoring in history and is married to Laurence Lobouy of Pass Christian.

Students inducted into Gamma Beta Phi, an honorary and service organization for students in the top 20 percent of each class, included Deborah J. Dawkins and Jennifer Lee Saucier. Saucier also received an Award of Merit from the School of Social Work. She is the daughter of Mr. and Mrs. Stephen R. Saucier.

Catherine Lynn Dedeaux Benoit was honored by the School of Nursing for being listed in the National Dean's List. She is married to Anthony

Benoit.

Pearlington

Pamela Lynn Giveans was recognized by the School of Nursing for being named to the National Dean's List. Giveans is married to Darryl Giveans.

Waveland

Rebecca Kay Adams Markel was inducted into Phi Kappa Phi, a scholastic honor society. Markel is married to R. Terry Markel of Waveland. She is a graduate student at USM, studying geology.

Kindergarten registration set in Bay, Waveland

The Bay St. Louis-Waveland School District announces North Bay and Waveland Elementary schools will hold kindergarten pre-registration for the 1993-94 school term Thursday, May 6, in each school library from 9 a.m. to 2 p.m. Students who reside within

the Bay St. Louis-Waveland School District and plan to enter kindergarten at North Bay or Waveland Elementary School are eligible to pre-register.

A certified copy of the child's birth certificate, a certificate of compliance (blue slip) from the health department or family physician, social security number requested, and two proof-of-residence documents (driver's license, utility bills, apartment or home lease, mortgage documents or property deed, home-stead exemption application form, voter precinct identification, automobile registration, or affidavit of residency) are required at pre-registration. Mississippi law mandates that children who are to enter

kindergarten must attain the age of five on or before September 1, 1993.

District residents along Washington Street and west including City of Waveland and Shoreline Park should pre-register at Waveland Elementary School, 1101 St. Joseph Street, Waveland. District residents east of Washington Street should register at North Bay Elementary School, 740 Dunbar Avenue, Bay St. Louis.

All parents are urged to pre-register their eligible children. Any questions concerning pre-registration should be directed to Kim Stasny, principal of North Bay Elementary at 467-4757 or James Baldree, principal of Waveland Elementary at 467-6630.

PRC offers GED test

PUBLIC HEARING NOTICE

The Hancock County Board of Supervisors is considering applying to the Mississippi Department of Economic and Community Development for a Small Cities Community Development Block Grant through the Public Facilities Category. The State of Mississippi has been awarded a 1993 allocation of \$36,097.00 which will be made available to cities and counties on a competitive basis to undertake eligible community development activities. These funds must be used for one of the following purposes:

- 1.] To benefit low and moderate income persons; or
- 2.] To aid in the prevention or elimination of slums or blight; or
- 3.] To meet other community development needs having a particular urgency because existing conditions pose a threat to the health and welfare of the community where other financial resources are not available to meet such needs.

More specific details regarding eligible activities and program requirements, as well as the proposed public facilities project, will be provided at a public hearing which will be held at the Waveland Civic Center/County Complex located at 3068 Longfellow Road in Waveland on Tuesday, May 4, 1993 at 5:30 p.m. The purpose of this hearing will be to obtain citizen input into the development of a CDBG application to provide sewer collection improvements to County residents.

All comments offered at the public hearing will be considered by the Board of Supervisors in developing the proposed CDBG public facilities application. All citizens are invited to attend the public hearing.

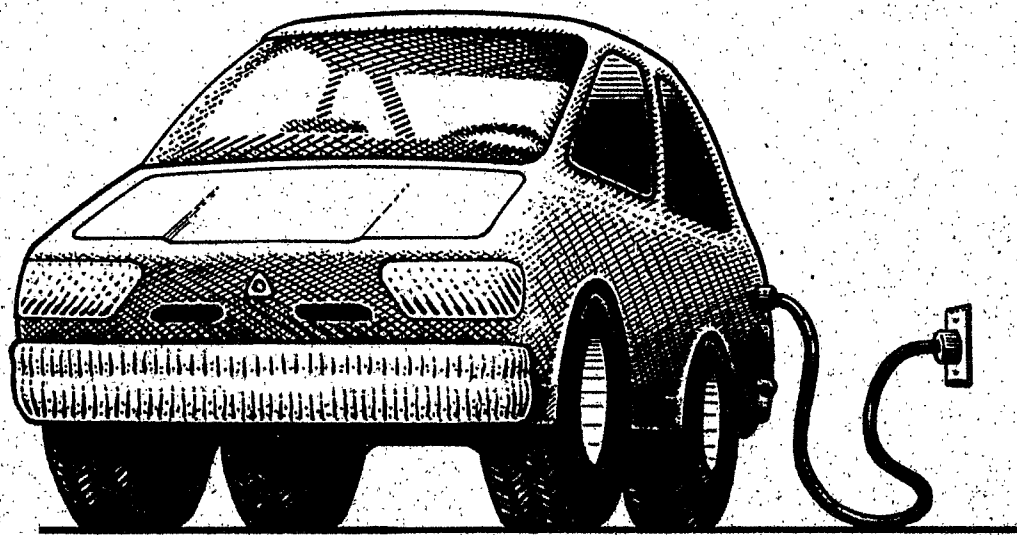

From the mouths of Babes

The first grade children of North Bay Elementary recently delighted parents and teachers with an original performance called "One Big Happy Family." Under the direction of music teacher Alfred H. Sheppard, the performances addressed issues such as sibling relationships; appreciation of parents and family members; parental quality time; and achievement stimulation. In simple words and songs, the children delivered a message that reminded parents to cherish the time with their children. At top are Jared Dunklin and Hannah McRaney; bottom from left, Taaka Johnson, Nicole Jeffords, Katie Lemon and Taylor Morel. (Echo staff photos by Jacqui Cochran)
